The copy filmed here has been reproduced thanks to the generosity of:

Library of the National Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ⟶ (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives nationales du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ⟶ signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

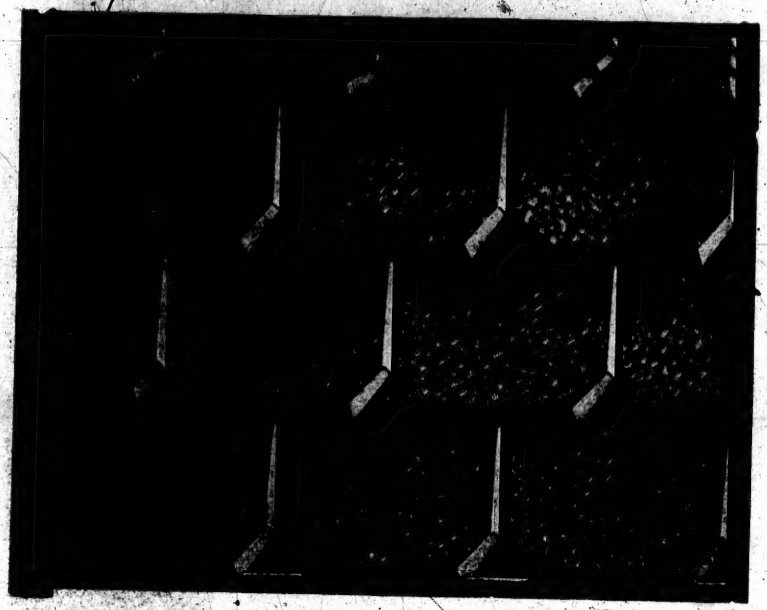
GENERAL TESTIMONIALS

"EASTLAKE"
GALVANIZED STEEL SHINGLES



PATENTED APRIL, 1885 MARCH, 1887 JANUARY, 1894

The Shingle that others try to imitate. Has no equal in any particular. The "**Eastlake**" is in use on more roofs than all other shingles combined.

Never fails to give satisfaction.

Can be laid by any one.

The only Shingle that has stood the test of time.

Hayes' Patent Steel Lathing

FOR BUILDINGS OF EVERY DESCRIPTION ALSO BOILERS, HOT AIR FURNACES, FLUES &c.

MANUFACTURED BY **THE METALLIC ROOFING CO.** OF CANADA (LIMITED)

Montreal

GENTLEMEN, MONTREAL, Que., July 28th, 1893.

We are well satisfied with the Hayes' Patent Metallic Lathing, which we employed in the plastering of the National Monument, St. Lawrence street. We consider this Lathing a superior article to any we have employed hitherto, and we propose in future to use it in preference to others.

Yours truly,

F. DECARY & SON, Plaster Contractors.

GENTLEMEN, MONTREAL, Que., January 12th, 1894.

I have used a considerable quantity of the Hayes' Patent Metallic Lathing in several first-class jobs, and I am now using it in two first-class houses and find it very satisfactory. I prefer it to any other kind of wire or metallic lathing that I have ever used, and as long as I can buy it at a reasonable price, and the article is kept up to the same standard, I will use it in preference to any other on the market.

Yours truly,

THOS. PHILLIPS, Contractor for Plastering.

The Metallic Roofing Co.

Ottawa

DEAR SIRS, OTTAWA, Ont., Feb. 19th, 1894.

In the early part of last year the Collegiate Institute of this city was destroyed by fire. In rebuilding, the directors of the Institute were anxious that the new building should be as nearly as possible fireproof, and, to carry out their wishes, I resolved to introduce fireproof lathing. I therefore selected your Hayes' Patent Plasmatic Steel Lathing, and saw it properly put on, and well nailed, and I am now well satisfied with the results. It is now some months since the work was completed, and there is no appearance of cracks or splits, nor likely to be, as there can be no shrinkage. I therefore take pleasure in testifying to the excellent quality of your Lathing, and also to say that it ought to be used in all good buildings where fire protection is required.

Yours respect[illegible]

JAMES MATHER, Architect, etc.

Toronto

GENTLEMEN, TORONTO, Ont., December 21st, 1893.

I have much pleasure in replying to your request for my opinion of Hayes' Patent Metallic Lathing. I have used it for some years now, largely in the University restoration, and in many minor jobs. In every case it has given satisfaction to all concerned. It is easy to put on, easy to put mortar on to, has a firm and solid key, with sufficient stiffness to allow of its use on joisting at sixteen-inch centres. It is easily adapted to use in forming coves, columns, and mouldings on wooden brackets. I can recommend it in every way. Yours truly,

WM. J. HYNES, Contractor and Plasterer.

GENTLEMEN, TORONTO, Ont., August 13th, 1890.

This is to certify that I have examined the Hayes Patent Metallic Lathing. I consider it a first-class article in every respect, both for private and public buildings, particularly as it renders them fireproof. I intend making use of it in buildings I may have in charge. Yours truly,

GEORGE R. HARPER, Architect.

DEAR SIRS, TORONTO, Ont., August 14th, 1890.

I have examined the sample of Hayes' Patent Metallic Lathing submitted by you, and, in my opinion, it is superior to any I have yet inspected, and I shall be pleased to introduce it in any of my work the first opportunity that presents itself. Yours truly,

GEO. W. GOUINLOCK, Architect.

GENTLEMEN, TORONTO, Ont., Dec. 22nd, 1893.

I have much pleasure in bearing testimony to the value of your Hayes' Patent Metallic Lathing. I consider it the best Metallic Lathing on the market, having used it for all conceivable purposes that it could be used for. In places where you are confined for room, such as beams or girders, it can be fixed to the solid, no space being needed for key, which is often a great consideration. For mouldings, however intricate, it readily adapts itself to any form; as, for instance, the Dominion Bank (Head Office), where it is used throughout the banking room for ceiling, walls, columns, etc. I have also used it for prisoners' cells at the Town Hall, Port Hope, where I think they would have quite a time getting through it, as any one would be able to testify who tries to do so.

Yours truly,

J. M. GANDER, Contractor for Plastering.

The Metallic Roofing Co.

DEAR SIRS, TORONTO, Ont., August 13th, 1890.

After examining sample of sheet metal Lathing submitted by you, we have no hesitation in saying that we consider it equal to anything of the kind that we have seen or used. We have used other makes of sheet metal lathing in preference to wire, and would not have the slightest misgiving in specifying yours.

Yours truly,

EDWARDS & WEBSTER, Architects.

GENTLEMEN, TORONTO, Ont., December 1st, 1893.

I take pleasure in saying that having used a considerable quantity of your Hayes' Patent Metallic Lathing, and also your "Owl" Brand of Siding Plates and "Eastlake" Steel Shingles, I find them to be unquestionably the best articles of their kind in the Canadian or American markets. Your Lathing possesses many advantages over the wooden lath, and your Siding and Roofing, while perfectly locked, are most durable and ornamental. By the use of these articles a wooden building may be made, to a great extent, fireproof, without materially adding to its cost.

Yours truly,

HENRY SIMPSON, Architect.

DEAR SIRS, TORONTO, Ont., Dec. 19th, 1893.

Having used your Hayes' Patent Metallic Lathing in a number of buildings, I pronounce it the best iron or metal Lath now on the market—far ahead of any other I have used; and being comparatively cheap, it is within the reach of all parties who propose putting up a good fireproof building.

Yours respectfully,

FRED. G. BEAVER, Plasterer and Contractor.

Amongst other important buildings in which the "Hayes" Patent Metallic Lathing has been used, we mention the following:

Kingston Infirmary, Kingston.
Dominion Bank, Toronto.
Bank of Hamilton, Hamilton.
Grande Seminaire, Montreal, Que.
Monument Nationale, Montreal, Que.
Mt. Royal School, Montreal, Que.
Court House, Montreal, Que.
Toronto University, Toronto.
Dominion Bank (Spadina branch), Toronto.
Board of Trade Building, Toronto.
High School, Peel and Metcalf Sts., Montreal.
Collegiate Institute, Ottawa.
Young Women's Christian Guild, Toronto.
Mrs. Cameron's residence, cor. Church and Carlton Streets, Toronto.
Montreal General Hospital, Montreal.
McGill Model School, Montreal.
High School, Aurora, Ont.
Hector Mackenzie's residence, Montreal.
Freehold Loan Building, Toronto.
Confederation Life Building, Toronto.
Rosamond Woollen Co.'s Building, Almonte.
Court House, Woodstock.
Sir Alex. Galt's Hospital, Lethbridge.

Roofing, Siding, or Ceiling

BRITISH COLUMBIA

Vancouver

DEAR SIRS, VANCOUVER, B.C., December 16th, 1893.

We have been using your galvanized and painted iron siding and roofing. They have both given good satisfaction, and we can safely recommend them to intending purchasers.

We are, yours truly,

B.C. IRON WORKS CO., General Founders and Engineers.

Victoria

DEAR SIRS, VICTORIA, B.C., March 8th, 1894.

We got some of Thorn's Broad Rib Roofing from you a year ago, and to-day it appears to be in as good a condition as when put on. We have not been troubled with any leaky roofs since we used them.

Yours truly,

THE CANADA PAINT CO. (LTD),

Per J. L. FORRESTER, Mgr. for B.C.

MANITOBA

Boissevain

GENTLEMEN, BOISSEVAIN, MAN., April 4th, 1894.

I have much pleasure in recommending your Metallic Shingles and Siding for covering elevators, warehouses, etc. They are well manufactured, easily and cheaply put on, and give satisfaction to those who have used them.

Yours truly,

C. W. PLUMMER, Lumber Merchant.

GENTLEMEN, BOISSEVAIN, MAN., February 14th, 1894.

Your inquiry just to hand. We have pleasure in acknowledging our entire satisfaction with the goods we bought from you. The iron was well crimped and the paint has been enduring, and we have no hesitation in advising those requiring such goods to deal with your firm.

Yours truly,

PRESTON & McKAY, Millers, etc.

The Metallic Roofing Co.

GENTLEMEN, BOISSEVAIN, MAN., December 29th, 1893.

We have had your Metallic Siding and Shingles in use on our elevator for the past two years, and they have given us entire satisfaction. We are well pleased with your goods, and have much pleasure in recommending same to intending purchasers.

Yours truly,

E. NICOL & SON, General Merchants and Grain Dealers.

Brandon

GENTLEMEN, BRANDON, Man., April 3rd, 1894.

Replying to your enquiry, would say that your Metallic Shingles and Siding have given us entire satisfaction. We have been using your goods for a number of years, and have never received a single complaint against them. The building we used your Shingles on was the Brandon Asylum, which has a roof of about 120 squares.

Yours truly,

THE WELLS HARDWARE AND PLUMBING CO.

Morden

DEAR SIRS, MORDEN, Man., Feb. 28th, 1894.

I have used a considerable quantity of your Metallic Siding, and am satisfied it is the best in the market for cheapness, ease of application, and durability.

Yours truly,

W. GARRETT, Engineer and Machinist.

Minnedosa

DEAR SIRS, MINNEDOSA, Man., April 2nd, 1894.

I have much pleasure in recommending your Metal Siding and Shingles. I have used both these lines here, and consider them superior to anything of the kind I have seen, and prefer them to any other make I know of.

Yours truly,

J. F. BOYD, Hardware Merchant.

Neepawa

GENTLEMEN, NEEPAWA, Man., July 25th, 1889.

We give you permission to use our name in any way to help on the good work of covering buildings with your Metallic Shingles. We have used them extensively for the last two years, and find in every case they have given the best of satisfaction.

Yours truly,

THE SKELDING HARDWARE CO.

Portage la Prairie

PORTAGE LA PRAIRIE, Man.,

GENTLEMEN, April 4th, 1894.

I have now been handling your Metallic Siding and Shingles for six or seven years, and take much pleasure in testifying to the excellent quality of both. I have handled a good many carloads of these goods, and have covered houses, stables, elevators, warehouses, and almost every kind

of building with them, and have never yet had the least complaint. For fire protection I consider them one of the best materials used. If properly put on, they make a building practically air-tight. I have known a building which caught fire from the furnace to burn for over two hours without doing any damage to speak of, except to the floor. If it had not been covered with metal, it would certainly have burnt to the ground.

Yours truly,

A. L. ASHDOWN, Hardware Merchant.

GENTLEMEN,

PORTAGE LA PRAIRIE, Man., July 20th, 1889.

In reply to yours of the 15th inst., I have been using your Imitation Brick Siding and "Eastlake" Metallic Shingles for over a year. During that time I have put on hundreds of squares, and have yet to hear the first complaint against them. **In every place I have used them they have given entire satisfaction to my customers.**

Yours respectfully,

J. O. CADHAM, Hardware Merchant, etc.

Wawanesa

DEAR SIRS,

WAWANESA, Man., March 17th, 1894.

This is to certify that I have been using your Roofing and Siding during the past four years, and can recommend it as being all you claim it to be.

Yours truly,

J. J. STORY, General Merchant.

Winnipeg

GENTLEMEN,

WINNIPEG, Man., April 23rd, 1889.

In answer to your enquiry, would say that **your Metallic Shingles and Siding have given entire satisfaction** to our customers. We cheerfully recommend them to all requiring such as **the most durable and easiest laid shingle in the market.** They are waterproof, and almost as cheap as ordinary wood shingles. It pays to use them in preference, and **we cannot recommend them too highly.**

Yours truly,

CAMPBELL BROTHERS, Hardware Merchants, etc.

GENTLEMEN,

WINNIPEG, Man., Dec. 28th, 1893.

In reply to your enquiry, we have much pleasure in stating that our experience in handling and using Metallic Shingles and Siding of your manufacture has been particularly satisfactory. **For several years we have handled very large quantities, and have not had one single complaint either as to quality of material or workmanship.** Anything we can do to increase your business for such goods either in this locality, or elsewhere, will afford us very great pleasure.

Yours truly,

J. H. ASHDOWN, Wholesale Hardware Merchant.

NORTHWEST TERRITORY

Prince Albert

GENTLEMEN, PRINCE ALBERT, Sask., Aug. 6th, 1889.

About four years ago I commenced using your Metallic Shingles on my own and other buildings, and it has given every satisfaction, being durable and substantially fireproof. The later patterns of this shingle—the "Eastlake," for instance—I consider superior to any other roof covering in the market for factories, warehouses, public buildings, etc.

Yours truly,

J. R. McPHAIL, Hardware Merchant, etc.

Qu'Appelle Station

PRIMROSE FARM, QU'APPELLE STATION, N.W.T.,
GENTLEMEN, Dec. 22nd, 1893.

I can very heartily recommend your Metallic Roofing to any one in the Northwest. A poor man taking up land out here can build his house, and, by using your Metallic Roofing, have, at a comparatively small cost, a perfectly safe roof over his head, free from fire, rain, and wind.

Yours very truly,

JOHN WEAL.

Regina

DEAR SIRS, REGINA, Assa., Sept. 1st, 1893.

Enclosed please find draft in full of account. I may say that your goods have always come to hand in good shape, and have opened out well, and always proved thoroughly satisfactory. I now enclose you another order, which you will please ship at once and oblige.

Yours truly,

P. McARA, JR.

GENTLEMEN, REGINA, N.W.T., Feb. 19th, 1894.

Having used your Metallic Roofing and Siding for some years past, I beg to state that I am well pleased with it, and think it is just the thing for elevators, warehouses, barns, etc., and is easily and quickly laid.

Yours truly,

S. SHANNON, Practical Tinsmith.

NOVA SCOTIA

Stellarton

GENTLEMEN, STELLARTON, N.S., March 29th, 1889.

We have found your Metallic Shingles so satisfactory that in all probability we shall soon be asking you to send us some more.

Yours truly,

ACADIA COAL CO., LTD. (H. S. POOLE, Agent).

On September 30th, 1889, we received an order from the above company for 22 squares of No. 24 Galvanized "Eastlake" Shingles.

GENTLEMEN, STELLARTON, N.S., Feb. 19th, 1894.

We have yours of the 12th inst. We expect to examine the roofing in the spring. In the mean time, we have nothing new to add to our previous statement respecting the satisfaction experienced

Yours truly,

ACADIA COAL CO., LTD. (H. S. POOLE, Agent).

Yarmouth

DEAR SIRS, YARMOUTH, N.S., April 7th, 1894.

With reference to the "Eastlake" Steel Shingles, I can testify with pleasure that up to date they have given every satisfaction. For neatness and ease in laying they are the correct thing.

Yours truly,

GEO. H. ROBERTSON, The Lake George Water Co., Ltd.

GENTLEMEN, YARMOUTH, N.S., April 18th, 1894.

Your Metallic Roofing material used by us last winter is giving perfect satisfaction, and, with a coat of paint occasionally, will never wear out. We will recommend them whenever an opportunity occurs. If your Shingles are kept up to the standard, in a few years there will be no limit to the sale of them.

Yours truly,

LINCOLN & WILLIAMS, Hardware Merchants, etc.

NEW BRUNSWICK

Newcastle

GENTLEMEN, NEWCASTLE, N.B., Nov. 24th, 1893.

I am much pleased with my roof, and it is attracting much attention here, as it is the first roof of its kind ever put up in this section. I have been asked for your address by a number of millmen here, and I think you will receive some orders from this source.

Very truly yours,

CHAS. D. MANNY.

GENTLEMEN, NEWCASTLE, N.B., Mar. 31st, 1894.

I take pleasure in saying that your Roofing has given the utmost satisfaction in every way. We used it on our new mill, and it has attracted a great deal of attention, and I have enquiries as to where this roofing can be got. I take pleasure in referring them to you.

Very truly yours,

CLARK, SKILLINGS & CO., LTD. (CHAS. D. MANNY, Agent).

NEWFOUNDLAND

GENTLEMEN, MONTREAL, Que., April 30th, 1894.

I have your Metallic Roofing on my sawmill in Newfoundland, and find it very satisfactory.

Yours truly,

R. G. REID, Contractor.

QUEBEC

Cookshire

GENTLEMEN, COOKSHIRE, Que., Aug. 14th, 1893.

. . . . I might add that our church roof, though only half completed, is attracting attention, and that a heavy fire which occurred about a month ago was stopped by the "Pail Brigade" mainly because the next building (a sawmill) had a sheet iron roof.

Yours,

JOHN H. COOK.

GENTLEMEN, COOKSHIRE, Que., Mar. 11th, 1894.

Having occasion to put a new roof on St. Peter's Church, here, last season, and wishing to use something that was fireproof as well as waterproof, I corresponded with several parties to obtain information as to the best material for our purpose. We finally ordered 46 squares of your No. 1 "Eastlake" Galvanized Shingles. We have now the best and handsomest roof in the country. Having three squares of shingles left, I had no difficulty in selling them at full cost to a gentleman who was building a house near by, who ordered enough more to complete his roof. We are thoroughly satisfied with the material as well as your company, who have always treated us with every courtesy.

Yours truly,

JOHN H. COOK, Churchwarden.

Coaticook

GENTLEMEN, COATICOOK, P.Q., March 31st, 1894.

The Steel Brick Siding and Shingles that I have purchased from you to use on different jobs, during the last five years, I take pleasure in informing you give me entire satisfaction. The Brick Siding, when properly painted and striped, makes an extremely good imitation of pressed brick, and can be used in connection with ornamental cornice work with fine effect. I shall continue using your goods, and recommend them to all as superior to any other similar goods on the market.

Yours truly,

C. A. KENNEDY, Hardware Merchant.

Drummondville

DEAR SIRS, DRUMMONDVILLE, Que., April 16th, 1894.

I have used your Brick Siding, and have always been well satisfied. All the wooden buildings have, of late, been covered with it. The cost of Brick Siding and expense of laying it are soon reimbursed by the decreased rates of insurance, as it is considered as fireproof as solid brick. Hoping that its use will continually increase,

I remain, yours truly,

J. A. GOSSELIN, Iron and Paint Merchant, etc.

DEAR SIRS, DRUMMONDVILLE, Que., Mar. 9th, 1894.

I have your Metallic Siding on my house, and find it very warm and comfortable, and quite a saving in insurance, and I am very well satisfied with it.

Yours truly,

T. REEVES, Sewing Machine Agent.

The Metallic Roofing Co.

Farnham

GENTLEMEN, FARNHAM, Que., Dec. 14th, 1893.

I have used your "Eastlake" Steel Shingles on my buildings, and I am satisfied that they make a good roof, as no drifting storm comes through, as is the case with other metal roofs I have used. I have also used your Pressed Steel Brick, and am well satisfied with it.

Yours respectfully,

BENJAMIN FEE, Carpenter and Builder.

Granby

DEAR SIRS, GRANBY, Que., April 2nd, 1894.

We have used your "Eastlake" Shingles for the past few years with entire satisfaction to ourselves and our customers. We do not hesitate to say that they surpass in quality and artistic appearance anything that we have ever handled.

Yours respectfully,

J. CHALMERS & SON, Tinsmiths and Roofers

Howick

GENTLEMEN, HOWICK, Que., Dec. 21st, 1893.

In reply to your enquiry about the "Eastlake" Steel Shingles which I bought from your firm, I may say that I used them on a building 85 feet long by 40 feet wide. They have given me entire satisfaction. They appear to stand the storms well and make a durable roof, and are at the same time very attractive. Whenever I need more roofing, I will use "Eastlake" Steel Shingles in preference to all other roofing.

Yours respectfully,

J. G. MAIR.

Montreal Junction

MONTREAL JUNCTION, Que.,

DEAR SIRS, Mar. 2nd, 1894.

All the material I have had from you has given me entire satisfaction, and I would highly recommend your stock to the public, as it is first class both in workmanship and quality. It is with pleasure that I subscribe my name to this certificate.

Yours truly,

B. S. WICKWARE.

Montreal

GENTLEMEN, MONTREAL, Que., April 30th, 1894.

I have your Metallic Roofing on my sawmill in Newfoundland, and find it very satisfactory.

Yours truly,

R. G. REID, Contractor.

Quebec

GENTLEMEN, QUEBEC, Que., Mar. 2nd, 1894.

I covered our engine shed on our road with your Corrugated Iron, also freight shed for the Quebec and Lake St. John Railway Co., in Quebec. As far as I have had an opportunity to know, your Corrugated Iron has given the best of satisfaction.

Yours truly,

G. S. CRESSMAN,

Manager Quebec, Montmorency and Charlevoix Ry. Co.

The Metallic Roofing Co.

St. Eustache

DEAR SIRS, ST. EUSTACHE, Que., Feb. 15th, 1894.

have not given your goods as thorough a trial as some of your customers have, but having used them two years I can say that the "Eastlake" Metallic Shingles you supplied me make a fine-looking roof, which answers every purpose for which a roof is intended, as it keeps out wind, rain, snow, and sparks, and if I had another house to roof I would use "Eastlake" Metallic Shingles, as I find them superior to even the broad sheet, soldered edge, galvanized iron roofs that are so common here.

Yours truly,

GEO. T. WOODWARK.

Sherbrooke

GENTLEMEN, SHERBROOKE, Que., Feb. 17th, 1894.

In reply to your enquiry, I may say that some three years ago I had the roofs of my house and extensions covered with your Metallic Shingles; they have proved quite satisfactory in every particular, their appearance being now as good as when placed. I have no hesitation in stating they are proving that they are fully equal to your representations.

Yours truly,

D. McMANAMY, Wholesale Liquor Merchant.

DEAR SIRS, SHERBROOKE, Que., Feb. 12th, 1894.

For the last few years we have used a large amount of your Metallic Roofing, and find it the cheapest and most durable we have ever used, and I have great pleasure in recommending the same.

Yours truly,

ROYAL PULP AND PAPER CO.

(F. P. BUCK, Pres. and Gen. Manager).

Thurso

THURSO, P.Q., Mar. 29th, 1894.

We have used Galvanized Iron Roofing material purchased from the Metallic Roofing Co. of Canada, Ltd., on two buildings, and are well satisfied with the result.

EDWARDS TRADING CO., LTD., General Merchants,

South Indian, Ont.; Casselman, Ont.; Dominionville, Ont.; and Thurso, Que.

Valleyfield

GENTLEMEN, VALLEYFIELD, Que., Mar. 28th, 1894.

It gives us pleasure to say that we covered our large elevator with your Fireproof Brick material two years ago, and that we are very much pleased with both the style and durability of this plate. Should we erect another building we would use no other covering.

Yours truly,

McDONALD & ROBB, Millers and Grain Dealers.

GENTLEMEN, VALLEYFIELD, Que., Mar. 28th, 1894.

In reply to your inquiry, I would say that we have used a considerable quantity of your goods, and that we have been quite satisfied with the result.

I am, yours truly,

LOUIS SIMPSON, Gen. Man. Montreal Cotton Co.

The Metallic Roofing Co.

ONTARIO

Alliston

GENTLEMEN, ALLISTON, Ont., Aug. 23rd, 1893.

We have handled a considerable quantity of your manufacture of Metallic Roofing and Shingles. These goods have given us the best of satisfaction, and as their merits become known we anticipate a much increased demand.

Yours truly,

P. D. KELLY & SON, Hardware Merchants, etc.

GENTLEMEN, ALLISTON, Ont., April 4th, 1894.

It is with much pleasure that I have a chance of recommending your Siding and Shingles, which I used some two years ago on three buildings. They seem to give good satisfaction.

Yours truly,

HUGH WRIGHT.

Acton

GENTLEMEN, ACTON, Ont., Mar. 26th, 1889.

We have now had your Metallic Shingles and Siding in use for over two years, and take pleasure in stating that we **find them all you claim for them**; we consider them **a perfect protection against fire.** Yours truly,

BEARDMORE & CO., Tanners, etc.

Aurora

DEAR SIRS, AURORA, Ont., Jan. 13th, 1894.

In reply to your inquiry would say that our roof has passed through the winter in the most satisfactory manner. The roof has a very fine appearance, and on a bright, sunny day the effect is grand, and we congratulate ourselves in having been directed to you. Yours truly,

MAIR BROS.

Ayr

GENTLEMEN, AYR, Ont., Mar. 31st, 1894.

I have much pleasure in saying that as I have now handled your Metallic Shingles for a number of years, **they have given the best of satisfaction.**

Yours truly,

H. GMELIN, Hardware Merchant.

The Metallic Roofing Co.

Almonte

DEAR SIRS, ALMONTE, Ont., Aug. 10th, 1893.

For a number of years now I have been using your "Eastlake" Shingles, putting them on whenever I had an opportunity, and am glad to be able to state that in every case they **have given perfect satisfaction** as I have yet to hear the first complaint. Five years ago the writer built a house and covered it with "Eastlake" Shingles and painted them a slate color, which made a handsome roof. Last season we roofed a house with "Eastlake" Galvanized; there were six valleys, and roof was less than square pitch, and although we have had some severe rainstorms since there is no sign of a leak. It also held all through the winter and spring, although at times there was from one to two feet of snow and ice in some of the valleys. I would strongly recommend your shingles to all parties wishing **a really first-class roof.** Yours truly,

D. SHAW, Hardware Merchant.

Brampton

GENTLEMEN, BRAMPTON, Ont., Jan. 5th, 1894.

The Metallic Shingles which I received from you have given good satisfaction. They are **in as good condition now as when put on**, and would highly recommend them to any person wanting a first-class roof. Yours truly,

W. B. McCULLOCH, Builder, etc.

GENTLEMEN, BRAMPTON, Ont., Feb. 13th, 1894.

In reply to your inquiry of to-day as to what satisfaction your Metallic Shingles and Sidings have given me, I have just this to say: it is a pleasure to sell them, for I know they will give every satisfaction. I have sold them for two seasons, and **have not had one complaint from a customer. Taking cheapness, durability, and fire protection into consideration, there is nothing better on the market.**

Yours respectfully,

A. G. BUCKHAM, Hardware Merchant, etc.

Brussels

GENTLEMEN, BRUSSELS, Ont., Aug. 19th, 1893.

Knowing the excellent quality of your Metallic Shingles and Siding, we beg to add our testimonial to the many you no doubt daily receive. **We have used your goods for over four years, and they have given every satisfaction,** and we consider them far ahead of anything we have seen. Yours truly,

BALLANTYNE & WILTON, Dealers in Stoves, Tinware, etc.

GENTLEMEN, BRUSSELS, Ont., Aug. 15th, 1893.

Since laying the "Eastlake" Painted Shingles, purchased from you, on the roof of our flour mill, we are well satisfied with the appearance of the roof. A number of people speaking to us about the roof say we put on **the best kind of material we could have used.**

Yours respectfully,

W. ROSS, Miller.

The Metallic Roofing Co.

Brockville

DEAR SIRS, BROCKVILLE, Ont., Feb. 24th, 1894.

I have been using your Metallic Roofing for several years **with very satisfactory results**, and cannot see why any one should use wood shingles for roofing when they can get a fireproof and almost everlasting metallic roof for about the same cost.

Yours,

W. H. HARRISON, Hardware Merchant, etc.

DEAR SIRS, BROCKVILLE, Feb. 19th, 1894.

What goods I have handled of your manufacture have given good satisfaction.

Yours truly,

R. H. SMART, Hardware Merchant.

GENTLEMEN, BROCKVILLE, Ont., Feb. 9th, 1894.

I have experienced the best satisfaction with the goods of your manufacture. Your Sheet Steel Brick I have on my house, and can recommend it to builders as **a warm, durable sheeting**, and, best of all, fireproof.

Yours very truly,

H. RATH, Tinware.

Belleville

GENTLEMEN, BELLEVILLE, Ont., Feb. 13th, 1894.

I have now been using your Metallic Shingles and Siding **for about seven years**, and find them all that you claim, **as they have given entire satisfaction to all my customers.** They make **a handsome, durable fire and waterproof roof**, and I would cheerfully recommend them to all requiring such.

Yours very truly,

WM. McGIE, Dealer in Tinware, etc.

GENTLEMEN, BELLEVILLE, Ont., Feb. 26th, 1884.

For several years I have been using goods of your manufacture, and I am glad to be able to say that they have in all cases given good satisfaction. I can particularly recommend your Galvanized Iron Shingles to any one wanting **a first-class roof**.

[illegible]ANLEY, Architect.

Barrie

GENTLEMEN, BARRIE, Ont., Feb. 15th, 1894.

We have a building 24x60 all covered with stuff we got from you, and find it **durable and waterproof**, and have much pleasure in recommending its use for water and fire protection.

Yours truly,

BROWN & CO., Flour, Feed, etc

DEAR SIRS, BARRIE, Ont., Feb. 9th, 1894.

I have been using your Metallic Shingles for the last three years, and can say that I am well pleased with them; **they have more than paid for themselves in saving and insurance**, and would recommend them to any person in preference to any other shingle I have seen.

Respectfully yours,

W. D. VANSICKLE, Lumberman.

The Metallic Roofing Co.

GENTLEMEN, BARRIE, Ont., July 15th, 1889.

We have put on five roofs of your Shingles, and they **have all given good satisfaction.** We do not hesitate to recommend them. Yours truly,

OTTON BROS., Hardware Merchants.

GENTLEMEN, BARRIE, Ont., April 3rd, 1894.

Your Metallic Shingles have been put on several buildings in this town, as well as in the country, and we believe with **general satisfaction.** We believe the extra expense in purchasing is met by the durability of the roof, and the much smaller amount of labor required to lay same.

Yours truly,

JOHNSTON & SARJEANT, Coal, Lumber, and Builders' Supplies.

Belton

DEAR SIRS, BELTON, Ont., Feb. [illegible], 1894.

I am well pleased with your Roofing; it is **a perfect roof,** as no rain or snow can get through it. Besides, it makes a very pretty roof. Yours truly,

A. J. THOMSON.

Bracebridge

DEAR SIRS, BRACEBRIDGE, Ont., March 27th, 1889.

I have used **your Metallic Siding** for store, and found it all you recommend it to be. It gives a good appearance, and with felt paper put under makes a very warm building, **warmer than ordinary siding and felt paper.** I also believe it to be a great protection in case of fire. **The reduction in cost of insurance will pay for interest on the investment.** Yours truly,

J. W. BETTES, Sheriff.

GENTLEMEN, BRACEBRIDGE, Ont., Jan. 2nd, 1894.

I am pleased to state that the Sheet Steel Pressed Brick you sold me two years ago is **fully up to all that you claimed** and filled the bill in every respect. I believe you have made several sales in this district from the recommendation I have been able to give.

Yours respectfully,

J. PRATT, Watchmaker, etc.

Bradford

GENTLEMEN, BRADFORD, Ont., Feb. 12th, 1894.

This is to certify that I have sold a quantity of your Shingles, etc., to many of my best customers, and they **have given the very best satisfaction.** I have yet to hear a wrong word against any of your goods. Yours truly,

A. THOMPSON, Hardware Merchant.

Blackstock

DEAR SIRS, BLACKSTOCK, Ont., Dec. 28th, 1893.

I can recommend your Roofing to be one of the best substitutes for pine or cedar shingles, and consider it much more durable. In the case of lightning, with a good eave trough and pipes, wire connected with pipes to damp earth is as good and **safe as any lightning rod, and saves from fifty to one hundred dollars on a building.**

Yours truly,

D. M. HOOEY.

The Metallic Roofing Co.

Bowmanville

GENTLEMEN, BOWMANVILLE, Ont., Dec. 12th, 1893.

It gives us pleasure to be able to recommend your Metal Roofing. We consider it a very superior article for the price, and cheerfully recommend it as **an excellent substitute for shingles.** We shall be pleased to recommend it to any one whom you wish to refer to us.

Yours truly,

DOMINION ORGAN AND PIANO CO., LTD.

Brantford

GENTLEMEN, BRANTFORD, Ont., March 28th, 1894.

We have been using your Metallic Shingles for the past four years, and find them a first-class material for roofing, as they are light, **durable, easily laid and entirely storm-proof.**

Yours truly,

HOWIE & FEELY, Stoves, Tinware, etc.

GENTLEMEN, BRANTFORD, Ont., March 21st, 1889.

I have been handling your Patent Metallic Shingles in Brantford for the last three years, and must say that they are superior in every way to any metallic shingle made. I have never had a complaint from any party that I ever made a sale to, they give general satisfaction; the cost is a little more than wooden shingles on the start, but is far cheaper in the end. I have known fine residences to have been built only three months, and leaking in several places on the roof, but these were covered with wooden shingles. I was bothered this way with my own house until I laid your shingles right over the wooden shingles, and have never seen any sign of a leak since. These have been laid over two years. I can fully recommend your shingles, but **I believe there are some worthless metallic shingles in the market, and would caution parties to be sure they get your Patent shingles.** I have seen samples of other shingles, and find they are not so durable and cannot be laid nearly so rapid. **The locks on the "Eastlake" Shingle are perfect; no possible chance of a leak.** I take great pleasure in testifying to the superiority of your shingles.

Yours respectfully,

WM. EDWARDS, Coal, Wood, and Lumber Merchant.

Berlin

GENTLEMEN, BERLIN, Ont., March 30th, 1894.

It is some time since we started using **Galvanized Corrugated Iron** of your manufacture, and **have found it highly satisfactory.** We have used large quantities of it during the past year, and have every reason to believe that it will prove as satisfactory as the first we used, which has so far stood the test well.

Yours truly,

THE BREITHAUPT LEATHER CO., LTD., Tanners and Leather Merchants,
Berlin, Penetanguishene, and Listowel, Ont.

DEAR SIRS, BERLIN, Ont., March 30th, 1894.

Your Metallic Roofing and Siding, which I have sold for some years past, have given purchasers of same very good satisfaction. **I have not heard a complaint** from any one using goods of your manufacture.

Yours very truly,

JOHN FENNELL, Hardware Merchant.

The Metallic Roofing Co.

Badjeros

GENTLEMEN, BADJEROS, Ont., Feb. 10th, 1894.

I covered my store with your Metallic Siding (brick pattern) about five years ago, and I am well pleased with it. **It is warmer than brick veneer, and less than half the cost.** I also sold a good deal of your Siding, and I think that in every case it has given entire satisfaction.

Yours truly,

N. D. McKINNON, General Merchant.

Blyth

GENTLEMEN, BLYTH, Ont., Dec. 11th, 1893.

I used your Metallic Siding (brick pattern), and **am well satisfied with it, both in summer and winter.** I am only sorry I did not put metal roofing on instead of wood shingles.

Yours truly,

JOHN MOFFAT.

Blenheim

GENTLEMEN, BLENHEIM, Ont., Sept. 4th, 1893.

It is now three years since I covered my house with your "Eastlake" Steel Shingles, and they have given me perfect satisfaction. Since then I have laid and **sold hundreds of squares** of your different makes of Shingles and Siding, **without receiving one complaint.** I advertised largely the first year, but now the roofs already on save me that expense.

Yours truly,

GEORGE MORGAN, Roofer.

Burritt's Rapids

BURRITT'S RAPIDS, Ont., March 31st, 1894.

DEAR SIRS,

I can truly say that the roofing I got of your make has given great satisfaction, and I would recommend it highly to any one wanting **a first-class roof.**

Yours truly,

J. W. BIGFORD, Tinsmith, etc.

Brighton

GENTLEMEN, BRIGHTON, Ont., April 4th, 1894.

It is with much satisfaction that I write this testimonial regarding the fire-proof qualities of your Metallic Roofing. A two-story frame building adjoining my store, and within eight or ten feet of the roof, was burnt on March 1st last, and **had my building not been covered with your Roofing I would have lost my store.** The damage, notwithstanding the intense heat, was very slight.

Yours respectfully,

SAM. NESBITT, General Merchant.

Clinton

GENTLEMEN, CLINTON, Ont., August 7th, 1893.

Please forward us at once 20 squares **"Empire"** Galvanized Shingles. We have put on several jobs of these shingles in **the past ten years,** and we certainly consider them **the most durable roof in the market,** as well as being a pretty roof. This lot of shingles is for a residence of our own, and, as we expect to be ready for the roof in about a week, please ship as promptly as possible, and much oblige.

Yours respectfully,

HARLAND BROS., Hardware Merchants, etc.

The Metallic Roofing Co.

Caledonia

GENTLEMEN, CALEDONIA, Ont., April 12th, 1894.

We have for some years used your Fireproof Building Material. When properly put on building and repainted, we are satisfied it will last longer and give better satisfaction than any other material used in this locality, besides **reducing the risk of fire**. We are glad to have the opportunity of recommending your make of goods.

R. E. WALKER, Hardware Merchant.

Cayuga

GENTLEMEN, CAYUGA, Ont., February 16th, 1894.

Having handled your goods for some time, I can recommend them as being all you claim. I have used them on my own buildings and those of patrons, who are **all well pleased with them**. They cannot help but come into general use, as they advertise themselves. I wish you every success.

Yours truly,

ALEX. MITCHELL, Hardware Merchant, etc.

Collingwood

GENTLEMEN, COLLINGWOOD, Ont., February 15th, 1894.

We have been using your Metallic Roofing and Sheet Steel Pressed Brick for a number of years, and find they have **always given perfect satisfaction**.

Yours respectfully,

THE BRYAN MANUFACTURING CO., Contractors and Builders.

GENTLEMEN, COLLINGWOOD, Ont., February 24th, 1894.

I can highly recommend your Shingles to those that intend to build, as they are warm and durable.

Yours,

W. PARROTT, Dealer in Stoves and Tinware.

Collin's Bay

GENTLEMEN, COLLIN'S BAY, Ont., February 16th, 1894.

We have much pleasure in stating that we have used your goods for the past few years, and **they have given entire satisfaction**.

Yours truly,

COLLIN'S BAY RAFTING AND FORWARDING CO.,

W. LESSLIE, Manager.

Cumberland

GENTLEMEN, CUMBERLAND, Ont., December 24th, 1893.

I have used your Metallic Roofing and Siding, and **consider them the best in the market**. I find them cheaper than wooden shingles or clapboards, and they make a clean, neat job.

I remain, yours truly,

H. BYRNES, Undertaker, etc.

Cheapside

DEAR SIRS, CHEAPSIDE, Ont., January 6th, 1894.

With reference to the goods I bought of you, I may say that I used them in Manitoba, and my sons state that they are **well satisfied with them**.

Yours truly,

O. E. SHOUP.

Chapman

DEAR SIRS, CHAPMAN, Ont., August 14th, 1893.

I can recommend your "Eastlake" Galvanized Steel Shingles, as they make a good solid roof.

Yours truly,

THOS. SMITH, Carpenter.

Chatham

GENTLEMEN, CHATHAM, Ont., August 16th, 1893.

I have handled your Metallic Shingles, etc., in my business for some time, and find them good. I know of no firm that makes better goods in your line, and **I have always been pleased at your mode of doing business.**

Yours truly,

GEO. STEPHENS, Hardware Merchant.

GENTLEMEN, CHATHAM, Ont., March 28th, 1894.

In reply to your enquiry of the 27th inst., we can highly recommend your Metallic Roofing, having put it on several factories and other buildings, and **it has given perfect satisfaction.**

Yours truly,

MORTON & ADAM, Hardware Merchants.

Cornwall

GENTLEMEN, CORNWALL, Ont., Dec. 23rd, 1893.

I have used your Patent Fireproof Steel Shingles for the last three years, and **find them first-class in every respect,** and can recommend them to any parties requiring a first-class permanent roof.

Respectfully yours,

JAMES C. JOHNSTON, Contractor.

Chesley

GENTLEMEN, CHESLEY, Ont., March 30th, 1894.

In reply to your enquiry, I beg to state that I have been using your Metallic Shingles since 1886 on public buildings and private residences, and am happy to state that they have given entire satisfaction. **I have not had a single complaint from a customer in all those years.** As a fireproof roofing I consider them unrivalled, easily laid, light, and handsome; snow and ice will not adhere to them like wood shingles. **Price considered, they are the best roofing on the market to-day.**

Respectfully yours,

D. STEVEN, Contractor and Builder.

Cobourg

DEAR SIRS, COBOURG, Ont., Feb. 24th, 1894.

Having used your Metallic Roofing and Siding, **and found them to be durable, and in every case to give perfect satisfaction,** we take great pleasure in recommending them to the general public.

Yours truly,

P. & J. D. BROTHERSTON, Hardware Merchants, etc.

Delhi GENTLEMEN,

DELHI, Ont., Dec. 26th, 1893.

Replying to yours of recent date regarding the Metallic Roofing made by you, I beg to say that it has given the best of satisfaction, and **all of my customers speak in the highest terms of it.** I have used considerable of it myself, and am well pleased with it in every way, and can recommend it as durable and neat-looking.

Yours truly,

E. MORGAN, Hardware Merchant, etc.

Delta DEAR SIRS,

DELTA, Ont., August 26th, 1893.

It gives me great pleasure to testify to the uniform quality of the Metallic Roofing and Siding that I have purchased from you. **The superior quality is such that I cannot say too much in their favor,** as they have always given the best of satisfaction. I have never heard anything but praise for them, and would highly recommend your goods to all requiring a good siding or roofing.

Yours,

J. A. BELL, General Merchant.

GENTLEMEN,

DELTA, Ont., March 30th, 1894.

I have much pleasure in stating that I am well pleased with your Roofing. I have some roofs now on five years which are giving entire satisfaction in every way. It is durable, also easily applied, **can lay fully one-half more squares per day than any other roofing.** I can heartily commend your roofing to any one wanting a first-class roof.

Yours respectfully,

E. A. PIERCE, Hardware Merchant.

Deseronto DEAR SIRS,

DESERONTO, Ont., August 10th, 1893.

We have put on some sixty-five squares of your Metallic Shingles. They are easily applied, and we are of the opinion will make a serviceable roofing.

Yours truly,

THE RATHBUN CO.

Dresden DEAR SIRS,

DRESDEN, Ont., January 3rd, 1894.

Replying to your letter of recent date, we beg to say that we consider your Metallic Roofing and Siding **a first-class article,** and cheerfully recommend it to intending purchasers.

Yours truly,

THE DRESDEN CANNING AND PICKLING CO.

Dundas DEAR SIRS,

DUNDAS, Ont., March 29th, 1894.

We covered one of our large machine shops last spring with your Metallic Roofing, and must say that, so far as we can judge, **it is a first-class article.** It was a very easy job putting on, and a great improvement over the old style, and cheap in comparison.

Yours truly,

JOHN BERTRAM & SONS, Canada Tool Works.

The Metallic Roofing Co.

DEAR SIRS, DUNDAS, Ont., March 29th, 1894.

In reply to your enquiry, I beg to say that the Metallic Roofing which you supplied me with has given the greatest satisfaction. **Formerly I had a great deal of trouble from leaky roof, but since putting on your Roofing have had none.** I consider that it has many advantages over ordinary shingles. It is easily laid, is cheap, **insurance rates are lower where it is used**, and it looks better than wooden shingles. Yours truly,

JAS. J. STEELE, Maltster.

Dutton GENTLEMEN, DUTTON, Ont., March 29th, 1894.

I have used your Metallic Roofing on houses and barns for the last three years, and can recommend it, as it **has given satisfaction in all cases.**

Yours truly,

J. B. CRAWFORD, Hardware Merchant.

Essex DEAR SIRS, ESSEX, Ont., Feb. 21st, 1894.

Having used your Metallic Roofing for the past four years, I am pleased to say that **it has given me the best of satisfaction, and I believe it to be superior to any on the market.** Yours respectfully,

JAS. McMURRAY, Hardware Merchant.

Fenwick GENTLEMEN, FENWICK, Ont., Dec. 30th, 1893.

I have used your Metallic Siding, and can recommend it to any one who wishes **a durable and cheap article.** Yours truly,

W. H. SWAYZE, General Store.

Felton DEAR SIRS, FELTON, Ont., Dec. 30th, 1893.

It is now some time since I received from you the "Eastlake" Shingles, and since then they **have given perfect satisfaction** and present a good appearance.

Yours truly,

JOHN McLAREN.

Fordwich DEAR SIRS, FORDWICH, Ont., April 11th, 1894.

I have used your brick pattern of Siding, and am very much pleased with it. The parties for whom I have done work are also **very well satisfied**, and I can highly recommend your goods. Yours truly,

J. C. MOSS.

Fort William DEAR SIRS, FORT WILLIAM, Ont., Feb. 21st, 1894.

I have been using your goods since 1891, and have always found them as represented. **They have given satisfaction in every respect.** I covered two buildings in 1891 with your Steel Pressed Brick, which looks as well to-day as it did when put on, and I am confident that **a building covered with your Shingles and Siding is practically fireproof.** Yours truly,

G. E. GOURLAY.

The Metallic Roofing Co.

DEAR SIRS,

FORT WILLIAM, Ont., Dec. 22nd, 1893.

In reply to yours of the 19th inst., I may say that it gives me great pleasure to comply with your request, and only trust it may be of as much benefit to you as I would wish. During the first year that I used your fireproof building material, **the saving effected thereby on my insurance, which is considerable, amounted to more than enough to compensate me for my outlay in purchasing from you.** Furthermore, the difference in the cost of veneering a frame building with your material and veneering with brick is so great, and the difference in the effect in cases of fire we may say *nil*, that your method must at once find favor with those to whom comparative safety at a minimum cost is an important item. I can, therefore, confidently recommend it to the public, and especially to those having large buildings on which, owing to material used, the insurance would be necessarily very large. In such cases, the use of your material would be of especial benefit. Trusting your company may meet with that continued success the merits of your Fireproof Building Material deserves,

I am, sirs,

Very truly yours,

JOHN KING, General Merchant.

Galt

GENTLEMEN,

GALT, Ont., Feb. 21st, 1894.

I have very much pleasure in stating that the Metallic Siding and Shingles furnished by you from time to time **have given the very best of satisfaction.** The shingles are considered much superior in every way to the common wood shingle, and I have no doubt will be ere long generally used here.

I am,

Yours truly,

A. C. FRASER, Wholesale and Retail Hardware Merchant.

DEAR SIRS,

GALT, Ont., Aug. 10th, 1893.

We beg to state that we covered our office, stable, and store shed with your Metallic Shingles four years ago, and are of the opinion that they are a cheap, durable, fireproof roof covering, **specially adapted to buildings situated as ours, close to the railway.**

Yours truly,

TODD MILLING CO., Flour Millers.

GENTLEMEN,

GALT, Ont., March 28th, 1894.

I am pleased to say that I have had the "Eastlake" Shingles in use for some years, and **find them to give entire satisfaction,** both in point of neatness and durability. For siding and mansard roofing I consider they have no equal, and I heartily recommend them to builders. I wish you the success they merit.

Respectfully yours,

GEORGE DANDO, Builder.

Gravenhurst

GENTLEMEN,

GRAVENHURST, Ont., Feb. 15th, 1894.

In reply to your inquiry regarding the Metallic Shingles and Siding I purchased of you in 1887 would say that **I found them to be all that you recommended.** They make a neat, durable, and warm wall or roof. I have my factory walls covered with the siding, and my residence roofed with the shingles, and I am well satisfied with them both.

Yours truly,

J. E. CLIPSHAM, Carriage Manufacturer.

The Metallic Roofing Co.

Gormley

GENTLEMEN, GORMLEY, Ont., April 5th, 1889.

We are happy to say that the **"Eastlake"** Shingles we purchased of you last summer, with which we roofed a large barn, have proved satisfactory in every respect; and we further state that **the rate of insurance** on the building is as **much lower than the ordinary rate** as to pay for keeping the roof well painted. Yours truly,

BRUCE BROS., Millers.

Guelph

DEAR SIRS, GUELPH, Ont., Aug. 10th, 1893.

We find the Metallic Roofing and Siding purchased of you very satisfactory; they are **cheap, neat, easily and quickly laid,** and, being also practically fireproof, have a great advantage over wood shingles and siding. Yours truly,

BURR BROS., Furniture Manufacturers.

GENTLEMEN, GUELFH, Ont., March 28th, 1894.

I am well pleased with the goods received from you about eighteen months ago for my shop. They are easily put on, and look well, and are giving good satisfaction; in fact, **they are as good as the day I put them on,** so far as I can see. Should I require any more, I shall be pleased to place my order with you. Yours respectfully,

JOHN McCONNELL, Carriage Manufacturer.

DEAR SIRS, GUELPH, Canada, December 28th, 1893.

I have great pleasure in certifying that I have had your Metallic Siding in use for a number of years on my elevator here, and also on one at an outlying point, and **found it to give the best of satisfaction,** and answers the purpose perfectly for which I am using it.

Yours truly,

JAS. GOLDIE, Merchant Miller.

Glen Williams

DEAR SIRS, GLEN WILLIAMS, Ont., Feb. 22nd, 1889.

We have pleasure in stating that the Metallic Shingles we bought from you some time ago, **are giving us every satisfaction.**

Yours truly,

SYKES & AINLEY, Manufacturers of Blankets, Tweeds, etc.

Glanford

GENTLEMEN, GLANFORD, Ont., Dec. 22nd, 1893.

I have used your Galvanized Metallic Shingles for two seasons, and I know of no other kind of roofing that would be their equal in making a light, neat, thoroughly waterproof and durable roof. **They have proved so satisfactory that I intend to continue right on until I have the buildings all covered.** Respectfully yours,

JOHN COX.

Glenora

DEAR SIRS, GLENORA, Ont., March 29th, 1894.

The **Galvanized "Empire" Shingles** purchased of you last fall were put on our new offices, and thus far have **given entire satisfaction.** We have used your "Eastlake" Shingles on our factory, and like them very well. **They make a cheap roof.**

Yours truly,

J. C. WILSON & CO., Mechanical Engineers and Machine Manufacturers.

The Metallic Roofing Co.

Grimsby

GENTLEMEN, GRIMSBY, Ont., January 8th, 1894.

I have used your Metallic Siding on extension to house, on drive house, and outhouses, and find it very warm, of good appearance, and **cheaper even than brick veneer.** I have also tried your Ornamental Ceiling, with great satisfaction. I can heartily recommend your goods to all who desire to combine quickness and handsomeness in building.

Yours truly,

(REV.) D. V. LUCAS.

Georgetown

GENTLEMEN, GEORGETOWN, Ont., April 2nd, 1894.

This certifies that I have used the goods of the Metallic Roofing Co. and find them as represented, **very easy to apply to roofs or sides,** and would recommend any person in need of your Roofing to give the goods manufactured by the Metallic Roofing Co. a trial.

A. ADAMS, Builder.

Gananoque

GENTLEMEN, GANANOQUE, Ont., March 30th, 1894.

Having used a considerable quantity of your Roofing and Siding of various kinds during the past few years, we must say that they have given good satisfaction, and seem to stand the climate well. Yours very truly,

I. W. BENNETT & SON, Hardware Merchants.

Hensall

DEAR SIRS, HENSALL, Ont., July 17th, 1889.

We have been using your Metallic Shingles for several years, and **find them give entire satisfaction.** We take great pleasure in highly recommending them, and feel satisfied it is to be the coming roof. Respectfully yours,

McDONELL & WAUGH, Hardware Merchants, etc.

Howard

DEAR SIRS, HOWARD, Kent Co., Dec. 15th, 1893.

I have used your "Eastlake" Metallic Shingles and Siding. I have two buildings covered with them for nearly two years. They are fire and waterproof, dry enough to keep powder in, and tight enough to pick ducks in in windy weather. It makes a very cheap and durable finish, being handsome as well. Yours truly,

JOHN ROSE.

Harriston

DEAR SIRS, HARRISTON, Ont., July 20th, 1889.

It is now four years since I first introduced your Metallic Shingles into this neighborhood. I am pleased to say that they have given entire satisfaction. **They are easily put on the roof**; any carpenter can soon learn to do the work expeditiously, and make **a durable and fireproof roof.** Yours truly,

GEO. GRAY, Architect and Builder.

The Metallic Roofing Co.

Huntsville

GENTLEMEN, HUNTSVILLE, Ont., Dec. 28th, 1893.

It is nearly three years since I commenced using Metallic Shingles and Siding of your manufacture, and, believe me, they have given entire satisfaction. **The first used were put on by a lad** who was not even an apprentice in carpentry, but **who, on reading over your directions, said he could put on the shingles; and he succeeded without any trouble.** I can cheerfully recommend the Shingles and Siding, and also the "O.K." Building Paper of your manufacture, to all who may need to use such commodities.

Very truly yours,

W. M. CREWSON.

DEAR SIRS, HUNTSVILLE, Ont., Mar. 1st, 1894.

We are pleased to say that what we have sold of your Metallic Shingles and Siding **have given entire satisfaction.** Our stores are both roofed and sided with your goods, and it suits the purpose well.

Yours truly,

WHITE BROS., Hardware Merchants.

Hamilton

GENTLEMEN, HAMILTON, Ont., Feb. 9th, 1894.

I have used your Shingles for several years, and **they have given better satisfaction than any others I have had.** I think that the "Eastlake" pattern is about all that one could wish for in the way of a metal shingle.

Yours respectfully,

JOHN E. RIDDELL, Galvanized Ironworker, etc.

GENTLEMEN, HAMILTON, Ont., Feb. 13th, 1894.

We have been using your goods for some time now, both Metallic Shingles and Corrugated Iron. **Your make of Corrugated Iron we prefer to the imported article, as the iron appears to be of a much better quality, and, as to the shingles, your make is the only one we care about using;** all that we have used have given us the greatest satisfaction, and we have great pleasure in recommending them. Make what use of this you wish, and rest assured of our continued patronage as long as the present quality of the goods is maintained.

Yours very respectfully,

J. WALLACE & SON, Plumbers, Tinsmiths, etc.

GENTLEMEN, HAMILTON, Ont., February 10th, 1894.

We have much pleasure in testifying to the merits of the "Eastlake" Shingles manufactured by your firm. We have used your shingles on some of the leading factories of this city, and **in every case they have given entire satisfaction,** and we have no hesitation in recommending your goods to be thoroughly reliable. Yours truly,

THOMAS IRWIN & SON, Galvanized Iron Workers, etc.

Innerkip

DEAR SIRS, INNERKIP, Ont., August 22nd, 1893.

"We have just completed our roof, and **for appearance and ease of application I can speak highly of your "Eastlake" Shingles.** They were also full weight as represented, and I am satisfied a number of roofs will be covered with them in this neighborhood.

Yours truly,

J. A. BEGG, General Store.

Ingersoll

GENTLEMEN, INGERSOLL, Ont., February 21st, 1894.

I have been using your Metallic Shingles more or less for the last three years, and I have no hesitation in saying that I am pleased with them. **They are well made, no trouble in putting them together,** and I have had no trouble with leaks. I am perfectly pleased with them in every particular. Yours truly,

STEPHEN KING, Tinware, Stoves, etc.

Kemptville

GENTLEMEN, KEMPTVILLE, Ont., August 16th, 1893.

It is now some time since I commenced using your goods, and I take much pleasure in stating that **they have given entire satisfaction in every case,** both to my customers and myself, and can safely recommend your goods to all who may require roofing, as they will find it to their interest in every respect.

Yours very truly,

W. A. BARNES, Hardware Merchant, etc.

Kingston

GENTLEMEN, KINGSTON, Ont., February 14th, 1894.

We have been using **your Metallic Shingles** and Brick Siding for some time, and take pleasure in stating that **we have found them perfectly water-tight,** and can recommend them as a good fire protection as well.

Yours truly,

NUGENT & TAYLOR, Tinsmiths and Plumbers.

DEAR SIRS, KINGSTON, Ont., March 29th, 1894.

Any of your goods that we have used have proved quite satisfactory.

Yours truly,

McKELVEY & BIRCH, Tinsmiths, Plumbers, etc.

GENTLEMEN, KINGSTON, Ont., December 23rd, 1893.

Having handled a large amount of the goods manufactured by your firm, we can cheerfully bear testimony to their excellent quality, and to the satisfactory dealings we have had with your house.

We remain, yours truly,

ELLIOTT BROS., Hot Water Heating Engineers, etc.

Kingsville

GENTLEMEN, KINGSVILLE, Ont., March 29th, 1894.

The Metallic Shingles and Siding purchased from you some two years ago are giving the best satisfaction. Yours truly,

S. L. McKAY, Hardware Merchant.

The Metallic Roofing Co.

Kars

DEAR SIRS, KARS, Ont., July 26th, 1889.

After using both your Roofing and Siding on several jobs, I have no hesitation in saying I believe them to be **the best in the market.** They have given full satisfaction to all whom I have used them for, and all who have examined them, who are competent to judge, pronounce them the best they have ever seen, and that **your Siding is superior to brick.**

Yours, etc.,

WM. LATIMER, Carpenter.

DEAR SIRS, KARS, Ont., January 15th, 1894.

In reply to your enquiry, I beg to say that your material has given entire satisfaction in every respect, and I had a great many enquiries from parties who intend using it. **Your Roofing is better liked than any other in this section.** Yours truly,

E. GILLESPIE.

Listowel

GENTLEMEN, LISTOWEL, Ont., August 10th, 1893.

In reply to your enquiry, we would say that **the "Eastlake" Shingles make a good roof.** We have put them on our town hall, gas works, and flour mill.

Yours truly,

BONNETT & BOWYER, Hardware Merchants, etc.

GENTLEMEN, LISTOWEL, Ont., August 10th, 1893.

In reply to yours of the 7th, would say that **all** the roofing we have purchased from you during the last two or three years **has given perfect satisfaction.** We cannot recommend it too highly, as **we have not had one complaint.** Yours respectfully,

BRICKER HARDWARE CO.

DEAR SIRS, LISTOWEL, Ont., February 21st, 1894.

Referring to your letter of the 16th, I am pleased to inform you that I have **used about 200 squares** of your shingles in the past two seasons, **with very satisfactory results.** I am just now specifying some of your goods for a couple of houses in Blyth.

Yours truly,

W. E. BINNING, Architect.

Lyn

DEAR SIRS, LYN, Ont., Oct. 11th, 1893.

. . . . . I have just settled up with the parties, letting them have a fair trial with the roof. There was a severe rain with a wind which blew a gale along with the rain, which kept up for about thirty-six hours; **the roofing was all right and no leaks.** I should think that the rain and wind would be equal to about seventy pounds pressure playing against the roof. The parties are well satisfied with the roof, and are giving it a good recommend.

Yours respectfully,

H. A. EVERTS, Dealer in Stoves and Tinware.

Lotus

DEAR SIRS, LOTUS, Ont., Jan. 1st, 1894.

I used your "Eastlake" Shingles first in 1890, and they pleased me so well that I had another roof covered with them in 1891; they both have and are giving good satisfaction. The roofs are one-quarter pitch. I prefer them to any wood or iron shingles that I have seen in regard both to price and usefulness. **They make a nicer roof than any slate.**

Yours truly,

W. H. SHAW.

London

DEAR SIRS, LONDON, Ont., Aug. 11th, 1893.

We have been using goods of your manufacture for roofing and siding for some years past, and are glad to say that they **have in every case proved satisfactory.** We hope for a considerable increase in this line of business in the near future.

Yours truly,

WM. STEVELY & SON, Merchants and Manufacturers.

GENTLEMEN, LONDON, Ont., Dec. 16th, 1893.

The roof upon which I used your Metallic Shingles was very flat, and your material gave me good satisfaction, and **was very easy to lay.** Yours faithfully,

W. J. CRAIG, Lumber Merchant.

Longford Mills

DEAR SIRS, LONGFORD MILLS, Ont., Mar. 28th, 1894.

The Roofing and Siding we got from you for our **shingle mill** are all right, and stand the weather well. Yours truly,

A. McPHERSON & Co., Mfrs. Lumber, etc.

Locust Hill

DEAR SIRS, LOCUST HILL, Ont., Mar. 21st, 1889.

I think your Metallic Roofing is superior to any roofing made at the present day.

Yours truly,

WM. ARMSTRONG, General Store.

Mildmay

DEAR SIRS, MILDMAY, Ont., February 9th, 1894.

As far as my experiene goes in regard to **your Metal Roofing and Siding,** I can say that they are **first-class articles,** and would highly recommend them to any that require them.

Yours truly,

GEO. CURLE, Hardware Merchant, etc.

DEAR SIRS, MILDMAY, Ont., February 17th, 1894.

We have used your roofing material now for a number of years for covering churches, etc., and it **has given good satisfaction everywhere. It is easily put on,** gives the roof a fine appearance, and makes a good and close covering. Yours truly,

G. & N. SCHWALM, Builders, etc.

The Metallic Roofing Co.

Midland

DEAR SIRS, MIDLAND, Ont., August 1st, 1893.

For the past five years we have used your Metallic Shingles and Siding, and find them as they were represented to be. **I consider your makes the best on the market, easy to adjust and fitting perfectly when on.**

Yours truly,

D. GRISE, Hardware Merchant, etc.

Mitchell

DEAR SIRS, MITCHELL, Ont., February 26th, 1894.

We have had considerable roofing from you, and **our customers say that it is giving the best of satisfaction**; it makes a light, fire, wind and weatherproof roof, handsome in appearance and durable, possessing many advantages over wooden shingles. We anticipate increased sales for it.

Yours truly,

KYLE & BARNETT, Hardware Merchants, etc.

Mount Forest

DEAR SIRS, MOUNT FOREST, Ont., February 9th, 1894.

I have been using "**Eastlake**" Shingles and Siding of different patterns made by you, **both of which have given** me and my customers **entire satisfaction.**

Yours, etc.,

J. P. NOONAN, Hardware Merchant, etc.

GENTLEMEN, MOUNT FOREST, Ont., March 31st, 1894.

I have much pleasure in speaking in the highest terms of your Metallic Roofing and Siding, the latter especially, as **it is so easily fitted on**, much time is saved, and it presents a neat finish.

Yours respectfully,

ALLAN LAMONT, Hardware Merchant.

Merritton

DEAR SIRS, MERRITTON, Ont., August 11th, 1893.

We have much pleasure in stating that, so far as we can see, the goods we received from you have turned out satisfactory.

Yours truly,

THE RIORDAN PAPER MILLS, LTD.

(T. H. TAYLOR, Secretary-Treasurer).

Meaford

DEAR SIRS, MEAFORD, Ont., April 2nd, 1894.

We have used goods of your manufacture for some time. **They have given first-class satisfaction,** and we have pleasure in recommending them to the trade.

Yours truly,

JAS. CLELAND & SON, Hardware Merchants.

The Metallic Roofing Co.

GENTLEMEN, MEAFORD, Ont., August 16th, 1893.

I have used your Metallic Siding, and believe it to be a good, serviceable article, and can recommend it to any person about to build.

Yours respectfully,

JAMES SPARLING, Builder and Contractor.

DEAR SIRS, MEAFORD, Ont., December 11th, 1893.

The Roofing and Siding I got from you for my elevator have proved themselves to be everything you claim. They have been on now about eighteen months, so that I have seen them in all kinds of weather. Although the elevator is in a very much exposed place, I have not had a shingle or plate come loose. **Saving in insurance will alone pay for using your goods.**

Yours truly,

WM. COOK, Grain Merchant.

GENTLEMEN, MEAFORD, Ont., March 1st, 1894.

We have much pleasure in stating that we have used your Metallic Roofing and Siding, and found them up to the mark in every particular that they were recommended to be, being very easy to put on. We have much pleasure in recommending them to all those requiring goods of that kind.

Yours respectfully,

DOBSON & DAY, Builders and Contractors.

GENTLEMEN, MEAFORD, Ont., February 26th, 1894.

In justice to you I may say that it is three years since I commenced to use your **Steel Pressed Brick**, which has given entire satisfaction. I have been building and contracting in the towns of Meaford and Owen Sound and county of Grey for twenty-nine years, and your material is the best and cheapest I have ever used on wooden buildings. I consider it **better than burnt clay bricks**, and it **does not cost half the money**. Every one who has used it in this neighborhood is well pleased with it. Wishing you every success in the manufacture and sale of your goods,

Yours respectfully,

D. McCANN, Builder and Contractor.

Madoc

GENTLEMEN, MADOC, Ont., August 12th, 1893.

Your Metallic Shingles and Siding are all you claim them to be. Having worked tin and sheet iron for years, I can say the stock is tough and the **patterns are first-class.**

Yours truly,

G. A. ROLLINS, Hardware Merchant.

The Metallic Roofing Co.

Maple Lodge

GENTLEMEN, MAPLE LODGE STOCK FARM, January 8th, 1894.

We used your painted Steel Shingles on our stock barn built in 1890. **They give us good satisfaction,** and we are satisfied we have an excellent roof. If our recommendation is of any use to you, we give it freely.

Yours respectfully,

JAS. S. SMITH, Breeder of Shorthorn Cattle and Leicester Sheep.

McIntyre

DEAR SIRS, MCINTYRE, Ont., Dec. 18th, 1893.

I have been using goods of your manufacture for some years, and always found them first class in every particular. I could name **buildings that I covered a number of years ago that look as good as new.** I have no hesitation in recommending your goods as a cheap and durable covering for any building.

Yours very truly,

JAMES POTTS, Builder.

Menie

DEAR SIRS, MENIE, Ont., December 26th, 1893.

In reply to yours of the 21st inst., asking whether the Metallic Roofing furnished by you to me some years ago is giving satisfaction, I am most happy to state that it is giving me every satisfaction, and, so far as I can see, it is as good as when put on. I intend using your Metallic Roofing on the main roof of my dwelling house, to replace the common wooden shingles. I may here state that **we found the steel shingles very easy to apply.** I consider that any one who can put on the common shingles can put on your steel ones. There is one great recommendation, that in the case of sparks or the chimney catching fire there is **not any danger of the roof getting on fire by the sparks falling** from it.

I am, truly yours,

WM. LAMB, Carriage Maker.

Merlin

GENTLEMEN, MERLIN, Ont., May 5th, 1894.

The Steel Siding and Roofing I purchased of you one year ago is everything that could be desired. It makes a great improvement in the appearance of my mill, and **lessens the rate of insurance about two per cent. per annum.** I sincerely believe it would be No. 1 for barn roofs, as the dust settling from threshing on wood shingles is sure to rot them in a very short time. I can highly recommend your Siding and Roofing to the public; first, for safety from fire; second, appearance; third, durability.

Yours, etc.,

ISAAC E. SIMPSON.

New Hamburg

DEAR SIRS, NEW HAMBURG, Ont., Feb. 23rd, 1894.

I have been using your Metallic Shingles for the last three years, and find that my sales for same are increasing every year. **Several of my customers who only purchased a few squares at first as a trial are now using them altogether** in place of other shingles.

Yours truly,

J. R. FEICK, Hardware Merchant, etc.

The Metallic Roofing Co.

Niagara-on-the-Lake

SIRS, NIAGARA-ON-THE-LAKE, Ont., April 24th, 1894.

The roof of your "**Empire**" **Galvanized Shingles** and Oiled Paper placed on **St. Mark's Church** here, last year, adds much to the appearance of the building, as well as being light, **perfectly proof against driving snow or rain**, and have not the least doubt will last for many years.

Yours respectfully,

J. DeW. RANDALL.

Niagara Falls South

NIAGARA FALLS SOUTH, Ont., Feb. 12th, 1894.

GENTLEMEN,

In reply to yours of the 3rd inst., we would say that for the past three or four years we have shingled a number of both large and small buildings with **your** Metallic Shingles, and have yet to hear of the first drop of water leaking through any of them. **They are the only Metallic Shingles we will sell and guarantee against leakage.**

Yours truly,

R. GARNER & SONS, Hardware Merchants, etc.

Niagara Falls

GENTLEMEN, NIAGARA FALLS, Ont., March 29th, 1894.

We have used your Metallic Shingles for over six years, and they have given the best of satisfaction. The first shingles we put on appear to be just as good now as when they were first put on, while some shingles made by another firm, that were put on only three years ago, have never given satisfaction; they have leaked ever since they were put on, and we are glad that we were not the parties who put them on. As long as we have any shingles to put on we will use yours, as we consider them the best in the market.

Yours respectfully,

CLARK & HENDERSON, Hardware Merchants.

Napanee

DEAR SIRS, NAPANEE, Ont., Mar. 29th, 1894.

What goods of your manufacture we have used have given satisfaction.

Yours respectfully,

BOYLE & SON, Hardware Merchants.

Norwich

GENTLEMEN, NORWICH, Ont., Mar. 29th, 1894.

We take great pleasure in stating that the roofs we have covered with your Metallic Shingles **have given the very best satisfaction**. We know of no superior.

Yours truly,

T. BATTY & CO., Hardware Merchants.

The Metallic Roofing Co.

Ottawa

DEAR SIRS, OTTAWA, Ont., Dec. 14th, 1893.

The Metallic Siding (Brick Pattern) purchased from you has been used up, and, I must say, **has given satisfaction in every way.** I remain, yours,

J. C. ENRIGHT, Tinsmith, etc.

GENTLEMEN, OTTAWA, Ont., Aug. 10th, 1893.

We are more than pleased to testify to the quality of your goods. Seldom is it that we find in any line of goods we handle more uniformity both in **quality and finish**, the latter **being exceptionally superior to anything of the kind**, and we bespeak a large increase from year to year if the present high standard is upheld. Yours truly,

E. G. LAVERDURE & CO., Hardware Merchants, etc.

DEAR SIRS, OTTAWA, Ont., Feb. 8th, 1894.

The three roofs which you covered for me about six years ago have given me thorough satisfaction. I recommend your Roofing to any one intending to build, as a good protection against fire, and, furthermore, as a good covering for old shingled roofs.

Yours, etc.,

GEO. C. REIFFENSTEIN.

GENTLEMEN, OTTAWA, Ont., Dec. 3rd, 1893.

In reply to your letter of the 20th inst., asking from me an expression of opinion in regard to the merits of the Metallic Roofing manufactured by you, I may say, as you know, that I have made considerable use of your "**Eastlake**" Shingles, and am of opinion that the finished product sold by you is **the best of its kind offered in the market**, and as such have no hesitation in commending its use. I am, gentlemen, yours faithfully,

FRED. J. ALEXANDER, Architect, etc.

DEAR SIRS, OTTAWA, Ont., Feb. 8th, 1894.

In answer to your enquiry as to the state of the leaded tin roof put on our two stores on Nicholas Street in 1886, and the Steel Plate Roofing put on the three houses on Lyon Street in 1887, we beg to assure you that at the date of writing this letter the said roofs are as they have been since they were first put on—**perfectly satisfactory in all respects.** We cheerfully recommend your Roofing to any one wanting **a first-class article at a reasonable price.**

Faithfully yours,

S. ROGERS & SON, Undertakers.

The Leaded Tin Roof referred to in the above letter has never had a coat of paint, nor does it require any, as we guarantee this style of material not to rust.

The Metallic Roofing Co.

Oakville

GENTLEMEN, OAKVILLE, Ont., Feb. 24th, 1894.

I am pleased with your goods, and you can use my name as a recommendation for them.

Yours truly,

JOHN KELLEY, Hardware Merchant, etc.

Otterville

GENTLEMEN, OTTERVILLE, Ont., Aug. 21st, 1893.

I have had your roofing in use myself and sold it to others in this section, and find it **gives perfect satisfaction in all cases.** I bespeak for you a large sale.

Yours truly,

W. F. KAY, Hardware Merchant, etc.

GENTLEMEN, OTTERVILLE, Ont., April 18th, 1894.

I have used your Metallic Shingles for some time, and they **have given good satisfaction.**

Yours truly,

R. A. HAWES, Agricultural Implements.

GENTLEMEN, OTTERVILLE, Ont., August 15th, 1893.

We have our finishing shop covered with your Metallic Shingles, and are so well pleased with them that we purpose removing the wooden shingles from our factory, also storehouse, and replacing them with the metal ones. In the short time since we put them on, **eight other buildings have been covered in our village,** and we expect a number more will use them very soon.

Yours truly,

OTTERVILLE MANUFACTURING CO.,

Manfrs. Hardware Specialties.

Owen Sound

DEAR SIRS, OWEN SOUND, Ont., April 4th, 1894.

It is some six years since I roofed my house with your Metallic Shingles, and they have given me every satisfaction. **They are as good now as when I put them on.** I have also used your Brick Siding, and am well pleased with it. I am going to give you another order for Brick Siding shortly.

Yours truly,

DAVID YOUNG, Sash and Door Factory.

Picton

DEAR SIRS, PICTON, Ont., April and, 1894.

The Shingles (Eastlake) purchased from you September, 1893, were soon placed on building, and have given every satisfaction, forming a complete, tasty, and reliable Roofing. We can recommend them to any person requiring such goods. The appearance is always neat, clean, and tidy.

Yours truly,

G. E. & A. R. VANDUSEN.

The Metallic Roofing Co.

GENTLEMEN, PICTON, Ont., Feb. 14th, 1894.

In reply to yours of the 12th inst., would say my experience with your Metallic Shingles has been so satisfactory that, if I were putting up a first-class building for myself, **would use no other covering for the roof.**

Yours, etc.,

W. J. CARTER, Hardware Merchant, etc.

DEAR SIRS, PICTON, Ont., January 4th, 1894.

I have used the "**Eastlake**" Steel Shingles, and would highly recommend them to the public at large for **making a good, tight, and fireproof roof**, as well as making a nice finished roof. As to the other lines of goods you manufacture, I have not had occasion to use them, but I am sure they will compare favorably with your Metal Shingles. Wishing you the compliments of the season, and a prosperous new year, I remain, respectfully yours,

JOHN ILLSEY, Tinsmith, etc., etc.

DEAR SIRS, PICTON, Ont., Aug. 16th, 1893.

In reply to your favor, would say that we have used your Metallic Shingles the last two years on quite a number of buildings, and **we find that they give good satisfaction**, and we can confidently recommend them to parties building as a good article.

Yours truly,

MARTIN & BOGART, Hardware Merchants, etc.

Perth GENTLEMEN, PERTH, Ont., Feb. 17th, 1894.

Having used your "**Eastlake**" Galvanized Iron Shingles for several years, I would say that **for quality of iron** and design **cannot be surpassed.** Wishing you every success, I am, yours respectfully,

W. G. BUTLER, Hardware Merchant, etc.

GENTLEMEN, PERTH, Ont., Feb. 22nd, 1894.

It is about twelve years since I first used your Roofing, and must say that **in all cases it has given perfect satisfaction**, especially of late years. Some of my men have put on other roofing and claim that **yours is much better.**

Yours, etc.,

PETER HOPE, Hardware Merchant, etc.

GENTLEMEN, PERTH, Ont., Aug. 10th, 1893.

I have great pleasure in recommending your Metallic Shingles. They prove to be all they are recommended to be. I have used considerable of them in the past, and **found them O. K. every time**, and would recommend them to the public at large as a good investment.

Yours respectfully,

A. McARTHUR, Hardware Merchant, etc.

Prescott

DEAR SIRS, PRESCOTT, Ont., Mar. 8th, 1894.

We take pleasure in saying that your Galvanized Metallic Roofing Shingles will come into use more and more, as **they make one of the best and most durable roofs suited to this climate.**

Yours truly,

THOMAS COATES, Hardware Merchant, etc.

DEAR SIRS, PRESCOTT, ONT., Mar. 28th, 1894.

I have handled your Metallic Shingles, Lathing, etc., for the past two years, and same have given good satisfaction, and **all my customers** that have used them are **well pleased with them.**

Yours respectfully,

N. WILLARD, Hardware Merchant.

DEAR SIRS, PRESCOTT, Ont., April 2nd, 1894.

As I have covered many roofs with your Metallic Shingles, I take pleasure in recommending them as being durable, handsome, cheap, and easily put on. Would also say that they are giving every satisfaction wherever we have used them. I believe they will come into general use. When you take into consideration their lasting qualities, and the difference in insuranee, I believe them to be cheaper than wood; therefore, any one who will use wood shingles hereafter, I think, is making a great mistake.

Yours very truly,

A. KEELER, Hardware Merchant.

Pembroke

DEAR SIRS, PEMBROKE, Ont., Aug. 10th, 1893.

Replying to yours of the 9th, we covered a large roof this summer with your Metallic Shingles, and must say that we were very much pleased with them. **They are easy to put on,** and look well after they are on.

Yours,

DUNLOP & CHAPMAN, Hardware Merchants, etc.

Peterboro

GENTLEMEN, PETERBORO, Ont., April 20th, 1894.

I have much pleasure in stating that I **have used a large quantity** of your Galvanized and Painted Shingles in the past five years, and have found them **giving perfect satisfaction,** and can recommend them to any one wanting a good article.

Yours truly,

ADAM HALL, Hardware Merchant.

Paris

DEAR SIRS, PARIS, Ont., Feb. 2nd, 1894.

I think that your different kinds of Metallic Shingles are one of the valuable adjuncts to building material. **They have the handsome appearance of a slate roof,** with the same protection against the fiery elements, are much cheaper and lighter, and all the jobs I have done have given general satisfaction. Hoping to send you another order soon for an "Eastlake" job,

I am, yours truly,

T. G. WATSON, Hardware Merchant.

The Metallic Roofing Co.

Palmerston

DEAR SIRS, PALMERSTON, Ont., April 3rd, 1894.

I have been using your Metallic Shingles, and I have never handled anything that has given me better satisfaction than they have. I believe Metallic Shingles, such as you make, are by far the **cheapest and best Shingles on the Canadian market**, and if I were going to build either a house or barn I would certainly use them.

Yours respectfully,

W. J. FALCONER, Hardware Merchant.

Port Arthur

GENTLEMEN, PORT ARTHUR, Aug. 13th, 1893.

I have much pleasure in stating that your goods have proved satisfactory in every respect. I have covered in this place St. Joseph's Hospital and the Separate School Building, and also a number of other buildings, and **in every place the goods have given splendid satisfaction, and I can highly recommend them.**

Yours,

A. CLAVET, Hardware Merchant, etc.

GENTLEMEN, PORT ARTHUR, Ont., April 16th, 1894.

We have been using your Metallic Shingles and Siding since we commenced business here in 1889, and are pleased to state that we have yet to hear the first word of complaint, and believe they have given entire satisfaction in every case where used. **They are clean, neat in pearance, easily put on, water tight, and apparently no wear out to them.** As a protection against fire, we know of nothing better. We can assure you it gives us pleasure to recommend goods worthy of as much merit as yours.

Yours very truly,

WELLS & EMMERSON, Hardware Merchants.

DEAR SIRS, PORT ARTHUR, Ont., Dec. 27th, 1893.

In reference to the good qualities of your "Eastlake" Steel Shingles, I may say that they are the best I have ever seen, being easily put on, and save labor, and, I believe, will last a lifetime. Your Shingles are fireproof, and do not hold the snow as wooden shingles do; the Siding is a capital thing both for warmth and appearance, and it takes but very little paint to cover it. I have had great satisfaction with all the goods I have received from your firm, and can safely say that your Roofing and Siding will be largely used in this district.

Yours respectfully,

W. J. SCHWIGLER, Mining Exchange Hotel.

Plattsville

DEAR SIRS, PLATTSVILLE, Ont., Feb. 9th, 1894.

I used some of your Metallic Roofing Shingles about five years ago, and **there is no sign of leakage** (which cannot be said of some pine shingles which have not been on half the time), and look as though they might last a great many years.

JAMES HUNTER, Hardware Merchant, etc.

The Metallic Roofing Co.

Penetanguishene

GENTLEMEN, PENETANGUISHENE, Ont., Mar. 25th, 1889.

We have much pleasure in stating that we used your Metallic Roofing and Siding on one of our buildings, and must say that it makes **the best Roofing and Siding that we ever used.**

Yours truly,

CRAIG & PAYETTE, General Founders and Machinists.

GENTLEMEN, PENETANGUISHENE, Ont., Feb. 19th, 1894.

We have had your Metallic Sheet Steel Pressed Brick in use for over two years, and find it **has given perfect satisfaction**, and can recommend it to any person requiring such an article.

Yours respectfully,

G. COPELAND & SONS, Merchant Millers.

GENTLEMEN, PENETANGUISHENE, Ont., Mar. 29th, 1894.

We have had your Metallic Roofing in use the last three years, and are pleased to recommend it for convenience of laying, and also for its **complete protection from leakage,** as well as from danger of fire.

Yours truly,

THE C. BECK MFG. CO., Lumber Mfrs., etc.

Port Dalhousie

GENTLEMEN, "ELMWOOD," PORT DALHOUSIE, Ont., April 6th, 1894.

It affords me much pleasure and satisfaction in highly recommending your Roofing material, having in use for some years **Galvanized Corrugated Iron** on a very flat roof, where wooden shingles have proved comparatively useless, has shown itself to be **a very superior article,** and fully supplies a long felt want.

Yours truly,

MORTIMER A. READ.

Preston

GENTLEMEN, PRESTON, Ont., Feb. 21st, 1894.

I take pleasure in letting you know that the Metallic Shingles and Siding of the **"Eastlake"** pattern which I bought of you the past six years are giving good satisfaction. I have used some of them on my own buildings for about five years, which are in very good condition, and the Siding which we put on buildings four or five years ago **appears to be as good as ever.**

Yours truly,

ALBERT ZIEMAN, Hardware Merchant.

Pickering

DEAR SIRS, PICKERING, Ont., Mar. 28th, 1894.

I have used your Fireproof Building Material, and **found it to give excellent satisfaction.** I know of none better.

Yours,

J. H. BUNDY, Tinsmith, etc.

The Metallic Roofing Co.

Port Credit

DEAR SIRS, PORT CREDIT, Ont., April 13th, 1894.

In reply to your enquiry we beg to state that to lessen our fire risk we covered **14,000 square feet** of roof with your Metallic Shingles, and also put on 5,000 feet of your Siding. So far we are well satisfied with it, being perfectly water-tight, and apparently as good yet as when put on four years ago. Our carpenters, by following your instructions, **found no difficulty in putting them on.** Yours truly,

ST. LAWRENCE STARCH CO., LTD.

Port Hope

GENTLEMEN, PORT HOPE, Ont., Dec. 20th, 1893.

I have much pleasure in saying that your Roofing and Siding Plates are giving entire satisfaction. I consider them the most economical Siding and Roofing there is to be had. I used them on a store of my own, and, if I were building again, I **would use them in preference to any other covering.** Yours very truly,

R. R. PHILP.

Renfrew

GENTLEMEN, RENFREW, Ont., Dec. 27th, 1893.

I am well pleased with the Metallic Roofing that I have used, and have much pleasure in recommending it to any person who is about to build.

Yours truly,

J. BRYDGE, JR., Baker and Confectioner.

DEAR SIRS, RENFREW, Ont., March 28th, 1894.

We find the Iron we received from you to **give us good satisfaction,** and would therefore recommend your house to any one, as far as quality and figure.

Yours truly,

MACKAY & GUEST, Flour Millers.

DEAR SIRS, RENFREW, Ont., Feb. 19th, 1894.

Having used goods of your manufacture for the last **nine or ten years,** I feel it my duty to say a few words in recommendation. For durability, ease of application, and general appearance, they **have always proved satisfactory.** Yours truly,

W. N. ROBERTS, Contractor.

Rodney

GENTLEMEN, RODNEY, Ont., March 27th, 1894.

The Metallic Shingles I had from you are quite satisfactory, and **are fully as good as represented.** I have been in business for over seventeen years, and had some experience during that time using metal shingles, and feel perfectly free to recommendy our goods to any one expecting to use anything in that line. Respectfully yours,

W. BRISTOW, Hardware Merchant.

Rydal Bank

DEAR SIRS, RYDAL BANK, Ont., April 3rd, 1894.

The Shingles and Siding I purchased from you last summer have given me great satisfaction. I covered my large new store with them, and might say that, in my opinion, for neatness in appearance and protection from fire they have no equal. Another great point in favor of your Shingles is that **snow will not lay on a roof covered with them.** I have every confidence in their durability, and would recommend them to any one wanting **a first-class covering for buildings.**

Yours truly,

W. R. SMYTH, General Merchant.

St. Catharines

DEAR SIRS, ST. CATHARINES, Ont., Feb. 15th, 1894.

Replying to yours of recent date, would say **we have sold your Siding and Shingles for a number of years, and find them giving general satisfaction.** Our trade has increased in that line yearly, and we can cheerfully recommend them to any person requiring that class of goods.

Yours truly,

COY BROS., Importers of Hardware.

DEAR SIRS, ST. CATHARINES, Ont., July 22nd, 1889.

I have used a large quantity of your Metallic Siding on my mill and warehouses, which seems to answer a first rate purpose, and would have no hesitation in recommending it to the public.

Yours truly,

JAMES NORRIS, Merchant Miller.

Springfield

DEAR SIRS, SPRINGFIELD, Ont., Aug. 9th, 1893.

I can recommend your Metallic Shingles to any one wanting a new roof for churches, schoolhouses, residences, barns, or any building exposed to the weather, and **consider them far ahead of wood shingles,** the cost being about the same. I have quite a number of orders, and am taking orders every day for your Roofing.

Yours truly,

H. CHAMBERS, Hardware Merchant, etc.

Shelburne

GENTLEMEN, SHELBURNE, Ont., Dec. 28th, 1893.

I have handled quite a lot of **your** Galvanized Iron and Steel Shingles in my business, and **they have given every satisfaction** to my customers and myself.

Yours truly,

G. R. HANNAH, Hardware Merchant, etc

DEAR SIRS, SHELBURNE, Ont., Dec. 23rd, 1893.

For some years I have used on my building goods of your manufacture; they have given me thorough satisfaction both as to quality and price.

Yours truly,

THOMAS NORTON, M.D.

The Metallic Roofing Co.

Seaforth

GENTLEMEN, SEAFORTH, Ont., Aug. 12th, 1893.

In reply to your letter of the 7th inst., would say we have no hesitation in sending you a few words of merit on behalf of your Shingles. **They have given the very best satisfaction** possible. **We have put on in the neighborhood of twenty roofs**, and have yet to hear of any complaint. We have put them on grist mills, planing mills, a pump factory, and some of our largest and best houses, and the best recommend we can give is, we believe **they have no equal in the market**, for the simple reason we cannot find any complaint, and **one job secures another**. Believing we will double our requirements this next season,

We remain, yours truly,

MULLETT & JACKSON, Hardware Merchants, etc.

SEAFORTH, Ont., April 11th, 1894.

We have used your Metallic Roofing material for some time, although not extensively, as there is a prejudice against using Metallic Roofing in this section, caused by the use of poor material in some cases, and poor workmanship in other cases. **We find your Roofing materials uniformly good and well made, and have never failed to make a satisfactory job.**

Yours respectfully,

JOHNSON BROS., Hardware Merchants.

South Finch

GENTLEMEN, SOUTH FINCH, Ont., Feb. 24th, 1894.

I have been using **your** goods for some time, and can say **they make a first-class roof**; they give good satisfaction in every case.

Yours truly,

H. A. NESBITT, Tinsmith, etc.

Stewart

GENTLEMEN, STEWART, Ont., Dec. 13th, 1893.

The material we bought from you about two years ago for building boiler room in our factory has proved entirely satisfactory, **making a good fireproof building at very low cost.**

Yours respectfully,

SMITH BROS., Manufacturers, Staves, Hoops, and Lumber.

Sebringville

GENTLEMEN, SEBRINGVILLE, Ont., Aug. 20th, 1889.

Having introduced your Metallic Shingles, we desire to certify that they have given entire satisfaction, being neat in appearance, durable, and absolutely fireproof. **The material being of the best quality, we consider it the cheapest roofing in the market.** Feeling perfectly satisfied that your Metallic Shingles is the coming roofing, we cannot recommend it too highly.

Yours truly,

SCHMIDT BROS., Tinsmiths, etc.

The Metallic Roofing Co.

GENTLEMEN, SEBRINGVILLE, Ont., Aug. 16th, 1893.

I have been handling the "Eastlake" Metallic Shingles for the last six years, and consider them a first-class article in every respect. I have put them on dwelling houses, hotels and barns, and in every case they have given entire satisfaction. Any person wanting a good, serviceable shingle can do no better than buy the "Eastlake."

Yours truly,

A. A. SCHMIDT, Stoves, Tinware, etc.

Straffordville

DEAR SIRS, STRAFFORDVILLE, Ont., Dec. 15th, 1893.

In reply to your inquiry, would say that it is about three years since I put on the first roof of your make, and it is giving perfect satisfaction, and **I consider it the best, cheapest, and most durable Metal Roofing in the market**, and wish you every success.

Yours truly,

C. CASWELL.

Simcoe

GENTLEMEN, SIMCOE, County Norfolk, Sept. 3rd, 1884.

I have much pleasure in assisting your enterprise. I have two buildings covered with your Metallic Shingles this spring, which I am greatly pleased with as a roofing. I have had some experience with slate and more especially on our County Buildings, and have not found it answer in this climate, being affected by the cold, and needing constant repair, and I greatly prefer your Metal Shingles. The County Gaol is covered with tin in the form of a shingle, and **has been in use for thirty-five years**, and during the last twenty-five years of my charge of the gaol **has not required any repairs**, and appears to be good for a considerable time yet. Your method of applying the Metallic Shingles is in my opinion more simple and better.

EDMUND DEEDS, Sheriff, County Norfolk.

Since receiving the above testimonial, we have supplied "Eastlake" Galvanized Shingles to replace the slate roofing on the County Buildings referred to.

GENTLEMEN, SIMCOE, Ont., July 16th, 1889.

After putting on many thousand squares of your Metallic Roofing, we would recommend it above any other roofing for our climate. Slates are not suitable, will crack and break with the storms; pine shingles are very unsatisfactory and leaky; while yours never fail to give satisfaction, being thoroughly fireproof, and **for durability there is no other roof that will compare with it.**

Respectfully yours,

PALMERSTON & MADDEN, Tinsmiths, etc.

Smith's Falls

DEAR SIRS, SMITH'S FALLS, Ont., Mar. 27th, 1894.

It is quite agreeable to testify to the success I have had in doing work with **all Metallic Shingles I have had from you.** I find they **give perfect satisfaction in every case**, and are selling on their merits. When I require any more I shall certainly give yours first place.

Yours,

D. MISKELLY, Hardware Merchant.

The Metallic Roofing Co.

St. Mary's

DEAR SIRS, ST. MARY'S, Ont., Aug. 15th, 1893.

I have been using **your Metallic Shingles and Siding**, and they **have given the best of satisfaction**. I have used them on some very large buildings; for instance, J. D. Moore's large refrigerator, D. H. Mathieson's dwelling, Knox Church, and Carter & Co.'s rolling mill, all of St. Mary's, and on a large schoolhouse at St. Ives, Middlesex, and two large residences in Oxford, and the owners are all well pleased.

Yours truly,

JACOB NEAR, Builder and Contractor.

DEAR SIRS, ST. MARY'S, Ont., Feb. 12th, 1894.

It is now over four years since I roofed my house with your "Eastlake" Steel Shingles, and I gladly express my entire satisfaction with the result. **The roof, though much broken by ridges and valleys, has proved to be perfectly tight**, and proof against rain, drifting snow, and back-water from frozen masses of snow and ice in the valleys. The roof of Knox Church here which was laid with the same shingles is also very satisfactory, both in appearance and in excluding the elements.

I am, yours truly,

J. H. MATHIESON.

Snyder

DEAR SIRS, SNYDER, Ont., April 2nd, 1894.

I covered my mill and shop with your Metallic Shingles nearly two years ago, and they have given good satisfaction. When I had the pine shingles on the mill it would occasionally get on fire in the dry weather, but **your shingles stopped that.**

Yours truly,

ISRAEL DEAN.

Sault Ste. Marie

GENTLEMEN, SAULT STE. MARIE, Ont., July 17th, 1889.

We have been using your "Eastlake" Shingles now for two years, and have found them to be good in every particular; in fact, they have given such good satisfaction **we are now putting them on the best roofs in town.** Wishing you success,

Yours respectfully,

PAULIN & PLUMMER, Hardware Merchants.

Smithville

DEAR SIRS, SMITHVILLE, Ont., Aug. 10th, 1893.

After using not less than **five hundred squares** in and around this town, and as far back as seven years ago, I have yet to hear the first complaint from the **"Eastlake"** Shingle or Steel Siding, but have had lots of trouble with another manufacturer. **The "Eastlake" fills the bill everywhere**, and in it you have a sure thing.

Yours truly,

H. D. WALKER, Tinsmith, etc.

The Metallic Roofing Co.

Stratford

GENTLEMEN, STRATFORD, Ont., Feb. 19th, 1894.

It is with great pleasure I take this opportunity of offering my humble testimonial to you in reference to the goods of your manufacture. **I have had occasion to use them on several important buildings throughout Ontario.** It is almost needless to say **they have given my clients more than satisfaction,** and are more than you claim them to be. I hope that in the near future **goods of the sterling reputation that yours have attained will be the staple article on the market.** Trusting that our future relations will be as harmonious as those of the past, and wishing you every success in the continuance of your honorable business,

I remain, yours respectfully,

DAVID GUNN BAXTER, Architect, etc.

Teeswater

DEAR SIRS, TEESWATER, Ont., April 3rd, 1894.

We have been using your Metallic Shingles and Siding for the last three years, and they have given entire satisfaction to our customers, and **we consider them the easiest laid, and the best of the kind in the market.**

Yours truly,

FERGUSON BROS., Hardware, Stoves, and Tinware Dealers.

GENTLEMEN, TEESWATER, Ont., Feb. 21st, 1894.

In reply to your favor, we beg to state that we have now used your Roofing and Siding for three years past, both on our own buildings and for customers, **and have found same to give good satisfaction.** We are, yours truly,

J. & H. FIELD, Hardware Merchants, etc.

Toledo

DEAR SIRS, TOLEDO, Ont., April 11th, 1894.

I take much pleasure in recommending your Metallic Galvanized Iron Shingles, having used them for some time and find they have given entire satisfaction. **Would recommend them in preference to any shingle I have ever used.**

Yours respectfully,

THOMAS SINGLETON, Hardware Merchant.

Tilsonburg

GENTLEMEN, TILSONBURG, Ont., Aug. 26th, 1893.

We have been handling and using **your** Steel Roofing and Siding, and find **it gives the best satisfaction of any we ever handled, being well painted, heavier, and easier put together,** and can recommend it to any one.

Yours truly,

FOSTER & HOBBS, Hardware Merchants, etc.

The Metallic Roofing Co.

Tamworth

DEAR SIRS, TAMWORTH, Ont., Dec. 14th, 1893.

I have used both your "Eastlake" and Broad Rib Roofing with good satisfaction, also the "Empire" Shingle.

Yours truly,

J. W. FULLER, Hardware Merchant.

Toronto

DEAR SIRS, TORONTO, Ont.

I take pleasure in certifying that the roofs covered with **your Metallic Shingles have given the utmost satisfaction.** A large number of buildings on the Exhibition Grounds have been covered with your Metallic Shingles, and **have proved the tightest roofs we have.** I also consider your Metallic Shingles and Siding a good fire protector.

Yours truly,

MARK HALL, Architect.

I agree with Mr. Hall's statement as to character of the Roofing material manufactured by this company. They can be used when wood shingles cannot be considered either on the score of appearance or safety against fire. The Siding and Shingles are ornamented in design, while **effective as a fire guard.**

JOHN J. WITHROW, President Industrial Exhibition, Toronto.

GENTLEMEN, TORONTO, Ont., Dec. 17th, 1893.

We have used large quantities of your Metallic Shingles and Siding during **the past eight years**, and have always found them to give every satisfaction, while at the same time we have found by actual experience that **your Shingles can be laid considerably quicker than any others on the market.** We might mention that we laid about **two thousand squares** of your Galvanized **"Eastlake"** Shingles on the new buildings erected on the Exhibition Grounds in this city this season, and the **sixty tons** of your **"Owl"** brand of Galvanized Corrugated Iron for the new train shed at the Union Station here is very satisfactory.

Yours truly,

DOUGLAS BROS., Galvanized Iron Workers, etc.

DEAR SIRS, TORONTO, Ont., April 3rd, 1888.

We have used your Metallic Shingles on buildings here, and consider them **a superior covering for roofs of large spans.** The roof of the "Cyclorama Building" here, with a clear span of 128 feet, covered with your Material has given the proprietors entire satisfaction. We have used your Material since on other buildings, for roofs and wall covering, with very satisfactory results. In our opinion, **your Metallic Shingles are sure to please the public every time,** and only require to be better known to be better appreciated.

Yours truly,

KENNEDY & HOLLAND, Architects, etc.

The Metallic Roofing Co.

DEAR SIRS, TORONTO, Ont., March 20th, 1889.

I take pleasure in acknowledging my satisfaction with the work of your company in re-roofing my residence, which is even better than I anticipated, your Metallic Shingles being laid over the pine shingles. **It completely fills the bill as an effective and fireproof roof.**

Yours truly,

F. W. JOHNSON, Provision Merchant.

GENTLEMEN, TORONTO, Ont., March 22nd, 1889.

Shortly after the large Esplanade fire in 1885, we had occasion to use something to cover our new coal sheds **to comply with the City Fire By-law**, and we decided to select your Metallic Shingles and Siding in preference to others offered at that time. Since then we have used them altogether on buildings erected by us, viz., office, waiting room, and addition to our coal sheds. After our experience of the past four years, we can fully recommend the use of your Metallic Shingles and Siding to the general public. Yours very truly,

THE ONTARIO COAL CO.

(M. F. BROWN, Treasurer).

SIRS, TORONTO, Ont., Dec. 11th, 1893.

In reply to yours of this date, we have used and come in contact to no small extent with the Roofing, etc., manufactured by you, and consider it to be **the best article of its kind at present before the public**. It is far superior to anything else as regards durability, etc., and we heartily recommend it to all those who should be requiring anything in this line. Your goods are without doubt second to none. Yours respectfully,

MEDLER & ARNOT, Building Contractors.

GENTLEMEN, TORONTO, Ont., Jan. 30th, 1894.

I take pleasure in offering you this recommendation as to the merits of **the "Owl" Brand of Galvanized Corrugated Iron** supplied me by your company last year. Having used a very large quantity of the material on my rolling mills at Swansea, I find that it makes the most desirable roof for my purpose, the **sheets being placed directly on the rafters without the expense of sheeting.** The Corrugated Sheets being covered with a first-class coating of zinc, I believe that the roof will last a long time. Trusting that you will meet with every success in this industry,

I remain, yours truly,

M. McDONELL, The McDonell Rolling Mill Co.

The Metallic Roofing Co.

GENTLEMEN, TORONTO, Ont., April 16th, 1888.

In reply to your inquiry as to what satisfaction your Metallic Shingles and Siding have given us **on our two elevators**, we would state that before purchasing of you we investigated other shingles and siding and ascertained their objectionable features, after which we concluded to give yours a trial, believing from the size of the sheet and the method of construction and interlocking one with the other that your shingles would give the best result. We have now found after two years' trial that our selection was the best we could have made, as the Shingles provide more thoroughly for uneven settling of the building than any other form of roofing or siding. **We have never had any of the shingles blow off, nor do we think they can with your system of nailing, although our buildings both stand in very exposed positions.**

Yours very truly,

J. B. McKAY & Co., Grain Commission Merchants.

GENTLEMEN, TORONTO, Ont., March 22nd, 1889.

About ten years ago I had my residence at 690 Dundas Street shingled with the best sawed shingles laid 4½ inches to the weather. The eave projected a considerable distance over the side of the house, causing snow and ice to freeze and back the water in under the shingles, and it leaked down the walls inside the house. I tried several remedies to prevent the leakage without success, until about two years ago I got you to re-cover it with your Metallic Shingles over the wooden shingles, and since then the roof has not leaked. It presents a good appearance, and **I consider the money I paid you well expended.**

Yours truly,

JOHN MALLON, Wholesale Butcher.

GENTLEMEN, TORONTO, Ont., March 23rd, 1889.

This is to certify that we have in use your Metallic Roofing on our oatmeal mill and dry kiln for three years, and **it has given entire satisfaction.**

Yours respectfully,

P. McINTOSH & SON, Produce Dealers.

DEAR SIRS, TORONTO, Ont., April 3rd, 1888.

In answer to your inquiry regarding the Metallic Shingles and Siding manufactured by your firm, I have used them myself with satisfaction, and **recommend their use as a protection against the spreading of fire**, and am much pleased to notice their coming into general use throughout the city, both as roofing and siding. Yours truly,

JOS. FLYNN, Chief Agent, Agricultural Insurance Co.

The Metallic Roofing Co.

GENTLEMEN, TORONTO, Ont., March 21st, 1889.

The roof you shingled for me with your Metallic Shingles **has given entire satisfaction.** Being a very flat roof, it has always been leaky until you shingled it, and your putting the Metallic Shingles over the old pine shingles has been a success.

Yours faithfully,

JOHN WILLMOT, St. Paul's Market.

DEAR SIRS, TORONTO, Ont., March 29th, 1889.

I have used your Metallic Siding on my office, stable, and on about twenty houses, laid over one ply of building paper. I am well satisfied with the appearance of the Siding. My experience dates four years back, and if I were going to build twenty more houses I would have nothing else, as it always looks well, and is never out of repair. There is no comparison between it and roughcast, and **I can highly recommend it for durability and a saving financially.**

Yours truly,

JOHN C. GRAHAM.

DEAR SIRS, TORONTO, Ont., Dec. 26th, 1893.

We have much pleasure in saying that we consider the Roofing, Siding, Lathing, and Ceiling manufactured by you to be very superior articles for the fireproofing of buildings. We have, as you know, lately covered the extensive buildings of the Polson Iron Works Co. on the Esplanade, and also those of Mr. Campbell at Toronto Junction, in addition to placing a very fine ceiling in the warehouse of the Land Security Co., Bay Street, city, **all of which have given the best satisfaction, as is the case with all your goods that we have used during the past five years.**

Yours truly,

TUCKER & DILLON, Galvanized Iron Workers, etc.

DEAR SIRS, TORONTO, Ont., Dec. 22nd, 1893.

In reply to your request, I am happy to say that the Metallic Roof you put upon my stable two years ago **has given perfect satisfaction.**

B. HOMER DIXON.

DEAR SIRS, TORONTO, Ont., March 21st, 1889.

In reply to yours of this date, I have to say that the roofs put on my residence on Charles Street and houses on Church Street by your company have given me perfect satisfaction, and should I require any Iron Siding or Roofing **I would certainly give you the preference to any other.**

Yours, etc.,

ROBERT L. FRASER, Barrister, etc.

The Metallic Roofing Co.

SIRS, TORONTO, Ont., May 3rd, 1889.

I have used your Shingles on several of my buildings, and **they have given good satisfaction.**

Yours truly,

RICHARD OUGH, Architect.

GENTLEMEN, TORONTO, Ont., March 27th, 1889.

In reply to yours of the 20th, would say that your Metallic Roofing put on my buildings last summer has given me **every satisfaction.** Yours truly,

WM. DAVIES, Provision Merchant.

DEAR SIRS, TORONTO, Ont., April 2nd, 1888.

In answer to your inquiry as to our opinion of your Metallic Roofing and Siding, **we have it on our buildings both in and out of the fire limit in this city. We have recommended it to our friends, although in so doing we have at times lost the sale of pine shingles.**

Yours truly,

JOHN B. SMITH & SONS, Lumber Manufacturers.

GENTLEMEN, TORONTO, Ont., April 9th, 1888.

Your Roofing Material (to my mind) is **the very best thing of the kind in the market.** As you know, I have used a large amount upon the Argonaut Club House, Toronto Yacht Club House, and several stores and private residences. There is no doubt in my mind that **it is thoroughly fireproof** in every respect. Yours truly,

ARTHUR R. DENISON, Architect and Civil Engineer.

DEAR SIRS, TORONTO, Ont., May 3rd, 1889.

I have much pleasure in stating that I have used your Metal Shingles extensively, and **am thoroughly satisfied with the results.** Yours truly,

NORMAN B. DICK, Architect.

DEAR SIRS, TORONTO, Ont., March 21st, 1889.

Having used your Metallic Siding on our warehouse on Esplanade Street **according to City By-Law demanding an iron-clad covering,** we take this opportunity of recommending same to any one thinking of using it. Yours truly,

THE CHRISTIE LIME AND STONE CO.

The Metallic Roofing Co.

DEAR SIRS, TORONTO, Ont., March 20th.

We have used considerable of your Shingles and Siding on several of our sheds, and have much pleasure in saying that we consider them about the best adapted for the purpose, being **an absolute protection against fire**.

Yours truly,

COBBAN MANUFACTURING CO.

DEAR SIRS, TORONTO, Ont., Dec. 20th, 1893.

We have used **your Corrugated Galvanized Iron** for roofing and siding on our buildings at Petrolia, and have found it **very satisfactory indeed**, being a safeguard against fire, and giving the building a very neat appearance.

Yours truly,

ROYAL OIL CO.
(GEO. ANDERSON, Manager).

GENTLEMEN, TORONTO, Ont., March 20th, 1889.

We have used a considerable quantity of your Metallic Shingles in connection with our business as builders, and have found them **a good, efficient roofing**. We have also found them a very satisfactory covering over old pine shingles on our Yonge Street stores.

Yours truly,

BRADY & BELL, Builders and Contractors.

DEAR SIRS, TORONTO, Ont., March 25th, 1889.

We have pleasure in recommending the Metallic Roofing and Siding such as you executed for us on the vestry of the Western Methodist Church in this city; it has a very neat appearance, and, we judge, will be very durable.

Yours truly,

SCOTT & CROSS, Builders.

DEAR SIRS, TORONTO, Ont., Dec. 26th, 1893.

The Roofing and Siding material supplied me by your firm **has given entire satisfaction in every particular**. I have had no trouble, nor have I been put to any expense, since the building was erected, two and a half years ago.

Yours respectfully,

J. L. SPINK, Miller, Flour and Grain Merchant.

The Metallic Roofing Co.

GENTLEMEN, TORONTO, Ont., March 20th, 1889.

We have used no other kind of shingles but the "Eastlake" since the summer of 1886. We have found them to be cleanly and neat in appearance, thoroughly water-tight as a roofing, a valuable fire protection both as siding and roofing, and even compared with pine shingles their use is economical. For new buildings and repairs to old ones, we have used them on dwelling houses of ours, and on stables for both roofs and sides in Toronto; also at our farm, and for stables at our London and Brantford agencies. **In every way they have given us entire satisfaction.**

THE SHEDDEN CO., Ltd., Cartage Agents for Grand Trunk Railway.

DEAR SIRS, TORONTO, Ont., April 3rd, 1888.

The Metallic Shingle Roofs you put on the Toronto Opera House and the Cyclorama Building are **quite satisfactory.**

C. A. SHAW, Manager.

Uxbridge

DEAR SIRS, UXBRIDGE, Ont., Feb. 16th, 1894.

I have used your Metallic Shingles and Siding for a number of years, and **consider them the best articles in use**, and would recommend them to any parties wishing to build, especially in towns or villages. Yours respectfully,

E. R. ANDERSON, Contractor and Builder.

Vankleek Hill

GENTLEMEN, VANKLEEK HILL, Ont., Aug. 9th, 1893.

As we have now used quite a lot of your Metallic Shingles, we have much pleasure in certifying to the fact that we are well pleased with them, and **would put them on in preference to tin any time. Our customers are all highly pleased with them also, as they can put them on themselves,** and thus reduce the cost of the roof considerably.

We are, yours truly,

McCALLUM BROS., Tinsmiths, etc.

Whitby

GENTLEMEN, WHITBY, Ont., Aug. 16th, 1893.

We take pleasure in stating that **we have been using your goods for a good many years and have never had any complaints,** which is a pretty good indication that they have given good satisfaction. Yours truly,

WILLIAM BRYAN & SON, Hardware Merchants, etc.

DEAR SIRS,

WHITBY, Ont., Dec. 16th, 1893.

I am much pleased with the Metal Shingles and Siding I got from you some two years ago, and contemplate using more of your goods this coming season. **Your goods have an excellent reputation, and I am sure they well deserve it.**

Yours truly,

W. ADAMS, Dentist, etc.

GENTLEMEN,

WHITBY, Ont., April 3rd, 1894.

We have much pleasure in stating that the roof of our factory here is covered with **your "Eastlake" Patent Shingles, which have been on now about seven years, and have given every satisfaction.** We may say that we did use a small quantity of shingles made by another manufacturer, which had to be replaced in a very short time, and were of a very inferior quality, while **yours have stood the test and come out in first-class condition.**

Yours truly,

THE MARTIN MNFG. CO., Ltd.

GENTLEMEN,

WHITBY, Ont., April 3rd, 1894.

I have been using your shingles for the last nine years, during which time **I have put on hundreds of squares.** I do not hesitate to recommend your Shingles to any one wanting a first-class roofing. Two years ago I was induced to buy ten squares from another firm of shingle manufacturers, the prices being lower than yours, but found the shingles a very inferior quality, and I would not lay any more at any price. I might say that **myself and h[illegible]aid 39 squares of your shingles on a building here in two days and a half.**

Yours truly,

J. McINTYRE, Roofer and Galvanized Iron Worker.

Waterloo

GENTLEMEN,

WATERLOO, Ont., Feb. 12th, 1894.

In reply to your inquiry re your goods, would say that what I have used **are giving good satisfaction.**

Yours respectfully,

JACOB CONRAD, Hardware Merchant, etc.

DEAR SIRS,

WATERLOO, Ont., Aug. 28th, 1893.

For some years I have supplied customers with **your** Metallic Roofing, and am able to say that **in all cases it has given satisfaction.** Among my customers is Mr. Jos. E. Seagram, the distiller, for whom I covered a large warehouse, and later on covered his elevator.

Yours, etc.,

P. HOHMEIER, Hardware Merchant, etc.

P.S.—Please send immediately 22 squares of Galvanized "Eastlake" Shingles, and 11 squares of Brick Siding.

The Metallic Roofing Co.

DEAR SIRS, WATERLOO, Ont., Aug. 9th, 1893.

I enclose marked cheque, No. 543, for amount of your account. I am much pleased with the appearance of my roof. Faithfully yours,

WILLIAM HENDRY.

Winchester Springs

DEAR SIRS, WINCHESTER SPRINGS, Ont., Aug. 14th, 1893.

For the last six years I have used your Metallic Shingles, and like them well, and **each year I find the demand for them increasing.** Yours, etc.,

JAY. W. NESBITT, Tinsmith, etc.

Windsor

GENTLEMEN, WINDSOR, Ont., Feb. 17th, 1894.

Your letter of the 15th inst. to hand, and, in reply, will say we used **"Eastlake" Steel Shingles** for roofing one of the largest schools in our city, and found it a splendid article, and, in fact, think it **the best Roofing Material we have handled.** As a proof, we might add that the roof above mentioned was put on about five years ago, and it has never required our attention since its completion. Respectfully yours,

R. PURSER & SON, Tin, Copper, and Sheet Iron Workers.

Westport

GENTLEMEN, WESTPORT, Ont., May 7th, 1894.

We have been using your Metallic Shingles for about six years, and can candidly recommend the **"Empire"** as being the **best on the market.**

Yours truly,

J. McGUIRE & SON, General Tinsmiths, etc.

Wiarton

GENTLEMEN, WIARTON, Ont., Feb., 21st, 1894.

Having used a quantity of your Metallic Roofing and Siding previous to going out of business, I am pleased to speak a word of recommendation for them, having found them to **give entire satisfaction in every case.** Yours truly,

A. J. KYLE, Plumber.

The Metallic Roofing Co.

Woodstock

DEAR SIRS, WOODSTOCK, Ont., April 2nd, 1894.

I used your make of **Pressed Galvanized Corrugated Iron** on my new foundry last year, and wish to say that it is **the best ever used, the sheets fitting into each other perfectly.** I will require more Corrugated Iron Roofing, and shall use no other.

I remain, yours truly,

JAMES A. CLOSE, Mfr. of Brick and Tile Machines.

Wallaceburg

GENTLEMEN, WALLACEBURG, Ont., April 5th, 1894.

I have used your **Improved Broad Rib Steel Roofing** on my grist mill. I put it on two years ago, and it **has given good satisfaction,** and looks well on the mill.

T. B. WEST, Miller.

Welland

Extract from a letter from Mr. P. McMURRAY, Hardware Merchant.

WELLAND, Ont., Feb. 15th, 1888.

One year ago I covered a large barn in Welland with your Metallic Siding, for the Queen's Hotel. On Jan. 25th the hotel and all **the surrounding buildings within six feet were burned down, while the barn covered with Metallic Siding proved to be fireproof, and was not damaged in the least,** with the exception of being smoked from the fire. Your Metallic Shingles and Siding are thoroughly storm and fireproof.

GENTLEMEN, WELLAND, Ont., Aug. 10th, 1893.

We are very much pleased with the Siding and Roofing purchased from you; they **have given the very best satisfaction.** Yours truly,

TAYLOR & CROW, Hardware and Stove Merchants.

Wroxeter

DEAR SIRS, WROXETER, Ont., Aug. 16th, 1893.

We have used your Shingles, and are well satisfied with them. They make a handsome, substantial, and durable roof, and, **taking durability into consideration, are as cheap as wood,** besides having the advantage of being fireproof.

Yours truly, RUTHERFORD & MUNRO, Hardware Merchants.

Westwood

GENTLEMEN, WESTWOOD, Ont., Feb. 21st, 1894.

We have used your "Manitoba" Light Steel Siding on our store; we find it firm, and have no hesitation in recommending it to those that may need such an article, as **it was cheap and easily put on.** We wish you success.

Yours truly, SARGENT & SON, Grocers and Hardware Merchants.

The Metallic Roofing Co.

Watford

GENTLEMEN, WATFORD, Ont., March 29th, 1894.

I have used your Roofing and Siding on elevator for two years, and can recommend same to any one wanting **a good roofing or siding.**

Yours truly, C. R. ANNETTE, General Merchant.

DEAR SIRS, WATFORD, Ont., March 27th, 1894.

We have during the last few years used and handled considerable of your Roofing and Siding, and both ourselves and our customers have been **well pleased with your goods.**

Respectfully yours,

JACOB LAWRENCE & SONS, Lumber Mnfrs.

Wingham

DEAR SIRS, WINGHAM, Ont., March 28th, 1894.

Answering your enquiry of yesterday, we beg to say that we have yet to hear of the first complaint with reference to any of your goods we have handled. **We have always found them up to representations in every respect.** We expect to handle a considerable quantity of your "Owl" brand Siding this season.

Yours truly, JAS. A. CLINE & CO, Hardware Merchants.

IN ADDITION TO THE FOREGOING TESTIMONIALS

We MAY Say THAT

TEN YEARS AGO, when we started the first factory in Canada for the manufacture of Metallic Shingles and other Fireproof Building Material, we felt that there was an opening for enterprising manufacturers of a suitable material to take the place of wooden shingles and slate, the former being usually made of very inferior material, crossgrained, inflammable, and requiring constant repairs, and lasting only a few years at the most—slate not being adapted to the severe changes of our climate, water getting under them and into the shaly portions, and by freezing either crack off pieces or break the slate, causing the roof to leak, and require expensive repairs, besides not being thoroughly fireproof, and requiring a very expensive superstructure to carry the great weight, and experienced workmen to lay them.

That we have succeeded in producing roofing and other fireproof, durable, and ornamental building material is amply proven by "What the People Say."

We started ten years ago with the determination to manufacture and sell only such material as we knew would give entire satisfaction, and have never failed to keep faith with our customers by supplying material strictly according to representation.

We were, and are, alive to the fact that every order we fill is an advertisement either for or against us, and that as the manufacture of our line of goods constitutes our sole business we cannot afford either to use inferior material, or to slight the workmanship, and we believe that any manufacturer who attempts to deceive the public will sooner or later have to close up his factory and retire from business, defeated by honest competitors who sell only reliable goods.

The designs and construction of the Fireproof Building Material made by us are all original ideas; we never copy the designs or ideas of other people.

No other maker of metallic shingles and siding in Canada can truthfully make such a statement as this.

Our goods have been and are still the Standard of Quality, durability, and construction; no imitator has yet produced their equal. Do not permit yourself to be persuaded into purchasing goods which are represented as being equal to ours.

The Metallic Roofing Co.

Our goods have no equal in any particular. When you require durable, ornamental, and thoroughly reliable Roofing, Siding, Ceiling, or Lathing, it will pay you to deal with a reliable firm, who have an established reputation for turning out satisfactory goods which have been thoroughly tested.

The material we manufacture is entirely different from any other in the market.

Owing to the construction of our Metallic Shingles, etc., it is quite impossible to make them of anything but the best grade of material, as cheap inferior plates would not stand the stamping and forming. We claim that no other manufacturer of metallic shingles uses material equal to ours.

We manufacture a greater variety of Metallic Shingles than any other concern in the world, and have been awarded gold, silver, and bronze medals, and diplomas of honor, in competition with other makers.

The price of our Roofing [illegible] ranges from $2.50 to $35.00 per square of 100 square feet, so that we can suit all classes of customers and furnish roofing, etc., suitable for all classes of buildings.

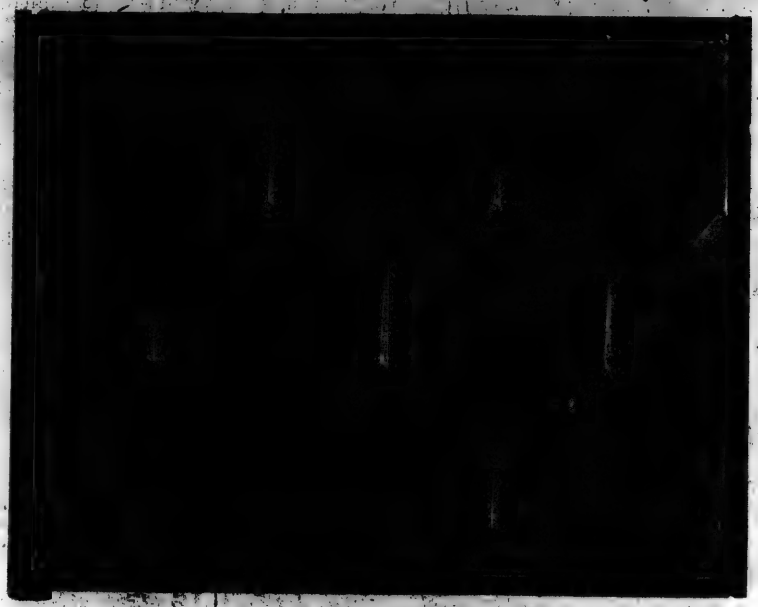
"EMPIRE" PATENT SHINGLES

The "Empire" Patent Shingles, made of tinned steel, galvanized **after** being formed into shape, are the best and most durable roofing made (next to copper), and are the **only** shingles that are galvanized **after** being formed into shape. These shingles do not require painting, and we warrant them not to rust under ordinary circumstances. They have no exposed fastenings of any description, and, when laid, all nail heads are covered.

The "Empire" Patent Shingles are also made of copper, painted steel, and plain tin or terne plate. These shingles have been on the market since 1882, and have never failed to give satisfaction.

The Metallic Roofing Co.

"EASTLAKE" PATENT SHINGLES



The "Eastlake" Patent Shingles are the old reliable shingles that others **try** to imitate.

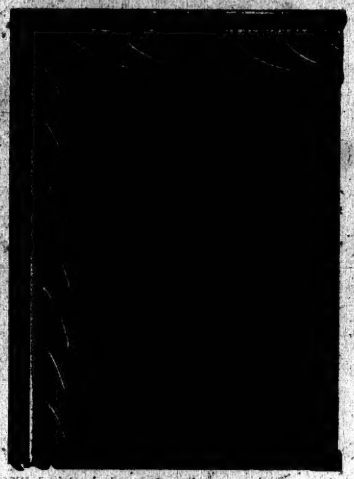
The "Eastlake" Patent Shingles are **made only by us**, and can be laid more rapidly than any other shingles on earth.

The "Eastlake" Shingles have been on the market since 1885; read "**What the People Say**" of them.

"PERFECTION" SHINGLES

The "Perfection" Shingles are intended for mansard and other steep roofs, and may be laid either diagonally or square.

MANSARD SHINGLES



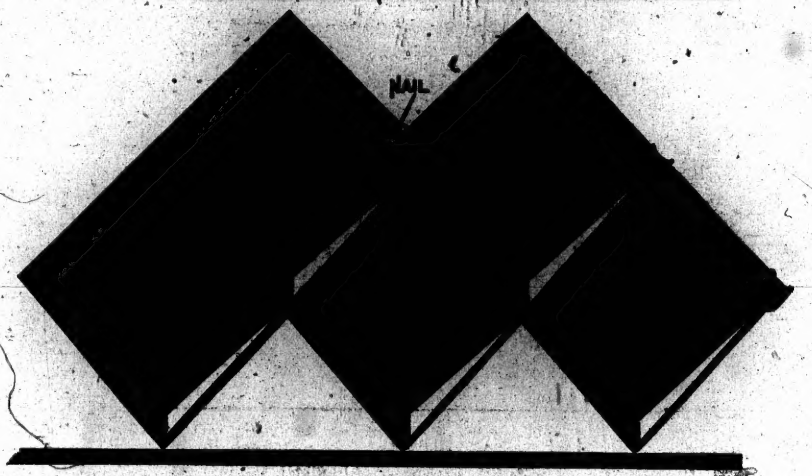
The Mansard Shingles make a very neat and ornamental covering for mansard roofs, and, when laid, all nail heads are covered.

THORN'S IMPROVED BROAD RIB

Thorn's Patent Broad Rib differs in construction from the other forms of shingles, being locked on all sides, and makes a very substantial roof.

The Metallic Roofing Co.

"EUREKA" DIAMOND TILES



The "Eureka" Diamond Tiles are intended for steeples, towers, mansards, gables, etc.

ROCK-FACED STEEL SIDING

Suitable for siding all classes of buildings. Warm in winter—cool in summer.

We also manufacture "Hayes'" Patent Steel Lathing, Pressed Corrugated Iron, Walter's and Cooper's Patent Galvanized or Painted Steel Shingles, Sheet Steel Pressed Brick, Metallic Ceiling, Rock-Faced and Clapboard Steel Siding, V Crimped Pressed Double Cap and Ready Roll Cap Roofing; also Corrugated Arches, Shutters, and Doors.—Catalogues of which will be forwarded upon application.
